

Termination Bars

PRODUCT DESCRIPTION

BMI Termination Bar is designed to terminate single-ply membrane at parapet walls and other penetrations. Use the Drill-Tec #14 or #15 fastener to secure the termination bar.

BMI Termination Bar is made of extruded aluminum with a mill finish for channel bar, and anodized finish for lip bar. Oval holes that measure 6mm x 10 mm are punched into each bar, with standard 6, 150mm and 300 mm on center spacing.
