About

Adhesion is a display font based on Blackletter typefaces inspired by the dark, saturated calligraphic letters of the Middle ages done on a pixel grid. This font can be used to evoke a classical yet modern feel.

Special characters

Adhesion display was constructed on a 25x25 pixel grid.

The font presents dramatic differences between thick and thin strokes.

Diagonal, thin serifs specially on lower case letters.

BLACKLETTER TYPEFACES, SOMETIMES REFERRED TO AS GOTHIC OR OLD ENGLISH, ARE CHARACTERIZED BY A DENSE BLACK TEXTURE AND HIGHLY DECORATED CAPS.

Blackletter

01.

Lettering in blackletter typefaces has a highly stylized appearance rooted in medieval, classic calligraphy. The letterforms are often dense with flourishing ascenders and caps.

03.

Most blackletter fonts have serifs, the small flourishes on the end of their strokes, that loop elaborately and contribute to their stylized appearance.

02.

Blackletter letterforms are typically characterized by angled strokes that mimic calligraphic handwriting, creating a sharp contrast between thick and thin strokes.

04.

In addition, Adhesion display has prominent decorative flourishes on the end of the strokes making it more striking.
