### Experience

#### Brezna d.o.o. (IT Services and IT Consulting)

Front End Developer / Remote / Jan 2025 - Ongoing

- Working on large-scale enterprise applications for Avnet, supporting internal sales teams in product configuration, component assembly, and customer engagement
- Developing and maintaining complex, data-driven web applications using React and Next.js, with a strong focus on scalability and long-term maintainability
- Integrating with backend systems via REST, handling complex business logic and data flows
- Building reusable UI components and workflows to support both internal (sales) and external (supplier) user-facing applications
- Collaborating closely with cross-functional teams (design, backend and QA)
- Contributing to code quality through testing, and shared frontend standards

#### Dark Leap (Tech-driven startup)

Software Developer / Remote / Apr 2023 - Jan 2025

- Developed and maintained production-ready web applications using Next.js, focusing on scalability, performance, and clean architecture
- Implemented SEO-optimized and mobile-first solutions, improving page load speed and Core Web Vitals
- Built cross-platform desktop and mobile applications (PC, Android, iOS) using Unity and C#
- Collaborated with designers and product stakeholders on UI/UX implementation, translating design concepts into high-quality, user-friendly interfaces

#### DeSophy (NYC-based creative agency)

Web Developer & Designer / Remote / Feb 2019 - Apr 2023

- Designed and developed scalable, responsive websites for commercial real estate clients, focusing on performance and maintainability
- Implemented reusable React components and frontend architectures aligned with design systems
- Worked cross-functionally with designers and clients to deliver branding-driven digital experiences
- Applied modern JavaScript patterns and frontend best practices across multiple client projects

#### Andon Creative Design (Dubai-based agency)

Digital Designer & Developer / On-site / Oct 2018 - Feb 2019

- Designed and developed websites for clients like Fly Emirates and Mubadala
- Created dynamic online experiences using HTML, CSS, JavaScript
- Worked on design projects that communicated brand and mission effectively

#### Hyperoptic Ltd. (UK-based telecom company)

Creative Executive / On-site / Jul 2016 - Feb 2017

- Led redesign of company website to improve usability and appeal
- Created marketing materials for rebranding and outreach efforts
