

This is to assure that Drax's (formally Haven Power) products

## **Renewable Source Electricity (RRE) & Biomass Renewable Electricity (BRE)**

meet the Quality Criteria of the World Resources Institute's GHG Protocol Scope2 Guidance (2015).

EcoAct assures that 1) the Fuel Mix Disclosure (FMD) for the period **1st April 2020 - 31st March 2021** and 2) the operating procedures and management of Drax's RRE and BRE products meet the Quality Criteria of the GHG Protocol (2015), enabling the end user of this product to report zero carbon emissions under the GHG Protocol market-based method.
