

Our Out of Contract Electricity Rates

Out of Contract rates apply to the electricity or gas we supply to Opus Corporate customers when a fixed period ends and a new contract has not been entered into either with us or a new supplier. We'll charge you these rates until you agree a new contract or switch to another supplier. Please note that these rates are not fixed, and they may change at any time, so check our website for more details.

You can find our Out of Contract rates below.

Qualifying Financially Disadvantaged Customers (QFDC)

Qualifying Financially Disadvantaged Customers (QFDC) discount was an additional government support that was included in our Deemed and Out of Contract rates between November 2022 and March 2023.

During this period, our Deemed and Out of Contract rates were calculated taking into account this additional government support. This QFDC discount was included in our published rates and is in addition to the Energy Bill Relief Scheme discount (which will be displayed on your bill separately).

Key*

kWh – kiloWatt hour

TNUoS – Transmission Network Use of System: the transmission cost associated with the relevant Half Hourly supply; National Grid Company levies this charge

DUoS – Distribution Use of System: the costs associated with operating and maintaining the distribution networks, levied by Distribution Network Operators (DNOs)

HHAC – Half Hourly Availability Charge: we calculate this by multiplying the Network Operator's published availability rate for the relevant HH supply - expressed in pence/kVA/day - by the customer's Chargeable Supply Capacity - expressed in kVA

DA – Data Aggregator

DC – Data Collector
