

This is to assure that Drax's products

**Renewable Source Electricity (RRE)  
&  
Biomass Renewable Electricity (BRE)**

meet the Quality Criteria of the World Resources Institute's GHG Protocol Scope 2 Guidance (2015).

EcoAct assures that, for the Fuel Mix Disclosure (FMD) for the period **1st April 2021 - 31st March 2022**, Drax's RRE and BRE product meet the Quality Criteria of the GHG Protocol (2015), enabling the end user of this product to report zero carbon emissions under the GHG Protocol market-based method. This does not include Scope 2 emissions from CH<sub>4</sub> and N<sub>2</sub>O.
