

MAKE THE MOST OF EXPLORE YOUR FUTURE

STOP AT EVERY BOOTH

Even if it doesn't immediately appeal to you, stop and ask questions. You never know what possibilities you may not have thought of, or what you could learn from others' stories that could apply to your journey.

ASK LOTS OF QUESTIONS

What different careers are represented at this workplace?
I'm interested in ____, are there any roles related to that here?
What experience would I need to work here?
What things should I consider when picking ____ as a career?
What advice would you give to those interested in this field?
What steps did you take to get to where you are?
What opportunities outside of school helped prepare you?
What soft skills do you look for in employees?

KEEP THE CONVERSATION GOING

What stood out to you? Did you learn anything new?
Do you feel more or less confident about your future?

Continue to ask questions and learn about the options out there. Remember, career exploration is a journey. You don't need to have it all figured out right now, and you're allowed to change your mind down the road.

WE VALUE YOUR FEEDBACK!
