Trimble Construction One Procurement MEP

All the tools you need to digitize your quote and order management from the office to the field

Now MEP contractors have a fully-connected suite of procurement management solutions in one convenient lightweight subscription.

Powered by Trimble's fully-managed manufacturer-specific product database and vast network of local supplier connections providing real-time pricing, Procurement MEP is the only solution on the market that is able to truly synchronize and streamline the day-to-day procurement operations for the MEP contractor.

Procurement MEP provides your procurement manager with all the tools they need to easily collaborate and share information with team members, create and manage bills of materials, digitally submit quotes and orders to local suppliers and manage all order activities from the office to the field — in one convenient webbased platform.

Benefits

- **Digital quote and order management** from a network of over 4,300 supplier branches across North America
- Item search and product documentation from the industry's most complete, reliable and fully-managed MEP product database
- **Move material management** activities online no more email, phone calls or spreadsheets!
- Synchronized line-item level data sharing across your TC1 applications and ERP System

What's Included:

- Supplier Xchange[™]
- TRA-SER[®] Base
- Trimble Connect[®] Business Premium

Shifts Trimble.

Procurement MEP

All the tools you need to digitize your quote and order management from the office to the field

Supplier Xchange

Supplier Xchange dramatically speeds up price and purchase order requests by automating the quote and order process between contractors and their suppliers-reducing inefficient communication and manual data entry.

TRA-SER Base

TRA-SER Base allows contractors to search items from an enriched, standardized and fully-managed database of manufacturer products for creating item favorites lists and adding to existing bills of materials to be used for quoting and ordering.

Trimble Connect Business Premium

Trimble Connect is an open collaboration tool specifically designed for the needs of the construction industry that makes project data available to all team members, providing crucial information to empower on-time, on-budget project delivery.
