@

## Replaced paper forms

- Safety processes
- Equipment inspections
- Other workflows

## Game changing benefits

- Better, faster data collection
- Real-time access to data
- Actionable intelligence

*“We had a vast amount of paper forms out in the field that were not getting turned in in a timely manner. The lag time and the paper format limited us from accessing and leveraging the vital information on those forms.”*

**HEATH WARDEN**  
Chief Financial Officer

*“Data from our forms is now timely, electronic, and structured in one system, so we can identify trends and provide predictive analytics to better manage field operations, fleet maintenance and other workflows.”*

# *Paperless Equipment Inspections & Audits*

## **Before...**

- Hard to manage large library of paper forms
- Slow process to fill out paper forms in the field
- Generic forms limited specificity of data
- Static, written content
- 1 to 2 weeks from field to office

## **With B2W inform...**

- Easy electronic form creation, and cloud access
- Faster, easier form completion
- Custom forms per each piece of equipment
- Rich data, including photos and videos
- Instant, real-time submission

## ***CLOSING THE GAP...***

***Between the field and the office***

***Between identifying defects and completing repairs***

*“Getting inspection and audit forms instantly in a digital format with Inform has really been a game changer that closes the gap between the field and the shop.”*

**BRETT TODD**  
Resource Operations Center Mgr.

*“We can now create work orders right away, and that has allowed us to cut the days-to-complete timeframe from 2 or 3 weeks to less than a week, on average.”*

# *Safety: A Better Process for Toolbox Talks*

## **Before...**

- Paper forms mailed to foremen
- Written confirmation and signatures
- Drive to the office: 1 to 2 weeks
- Redundant data entry
- Manual reporting

## **With B2W inform...**

- Access materials online
- Electronic sign-off by employees
- Instant, real-time submission
- Digital data – no re-keying
- Automated reporting

*“Now, I pull the toolbox talk up on my iPad, present the topic, have my crew sign electronically, and it’s submitted to the office by 7:00 a.m. There is no opportunity for errors, delays or lost paperwork.”*

**TINO RODRIGUEZ** Foreman

# *Easy to Deploy – Easy to Learn*

*“User friendly with B2W is pretty much five out of five stars. I learned it very fast. I also do a lot of training for my employees – including many that are not that tech savvy – and it’s very easy to teach and learn as well.”*

**TINO RODRIGUEZ** Foreman

*“It takes away the paperwork. It makes our job a lot easier. Anything that takes the paperwork out of it is better for us.”*

**TAYLOR GURLEY** Foreman

*One of the reasons we picked B2W is the **ONE** platform and being able to tie our enterprise system into a system that benefits our field operations. They can report the time, dispatch the equipment, maintain the equipment and then collect data on different pieces out in the field with Inform. All the information is succinct, verifiable and in the same format, so we have consistent reporting from our enterprise system into the **B2W** platform.*

**HEATH WAHDEN** – Chief Financial Officer

### **Metairie, Louisiana**

Asphalt and Concrete paving  
Heavy Civil Construction  
Industrial Construction

Barriere is a fourth-generation, family-owned company. Since 1949, customers have trusted Barriere to build, maintain and improve the ground-up infrastructure that drives commerce in Louisiana and the Gulf South Region.
