

# Breaking Down the Hidden Costs of Disconnected Construction Software

 Running a Better Business Series

**Trimble**  
Construction

## **How does the connected, cloud-based Trimble Construction One™ suite stack up to other construction management software solutions?**

When you start to add up all the hidden costs to patch together those standalone systems to meet your business needs, you might be surprised.

Let's look at a comparison of the features a typical mid-to large-sized contractor might need to effectively manage their operations:

# Yes, your digital and data transformation is an investment.

So how does Trimble Construction One stack up to other construction management software solutions? When you start to add up all the hidden costs to patch together those standalone systems to meet your business needs, you might be surprised.

Trimble Construction One™		Other Software Solutions
With the Trimble Construction One suite of integrated, cloud-based construction solutions:		With multiple, separate construction and business management software packages:
 Included	Back-Office ERP; and Project Management Solution; and	 
Included	Mobile Field Data Management Solution; and	
Included	HR Management Solution; and	
Not Required	Fees for Custom Software Integrations, Reporting and APIs	
 TOTAL COSTS		

Maintaining disconnected software solutions could be costing you 3X the amount of money as Trimble Construction One! So, as a construction financial professional, doesn't it make sense to modernize the right way?

**Maintaining multiple, disconnected software solutions could be costing you 3X the amount of money as Trimble Construction One!**

**And, Trimble Construction One's seamless, real-time workflows means even less time and money wasted on administrative tasks to reconcile data between systems.**

One Software Suite.

One Trusted Technology Vendor.

One Source of Real-Time  
Construction Data Truth.

**That's the value of  
Trimble Construction One.**

## ABOUT TRIMBLE VIEWPOINT

Trimble Viewpoint, a Trimble Division, is a leading global provider of integrated software solutions for the construction industry. Trimble Viewpoint software enables customers to integrate operations across the office, team and field to improve project profitability, enhance productivity, manage risk and effectively collaborate across the broad construction ecosystem. With nearly 8,000 clients, including more than 40 percent of the ENR 400, Trimble Viewpoint's innovations are transforming the construction industry by fully integrating operations across financial and HR systems, project management tools and mobile field solutions.
