Trimble Unity Construct

SAVING LIVES

Banner Health

CUSTOMER STORY

Facts

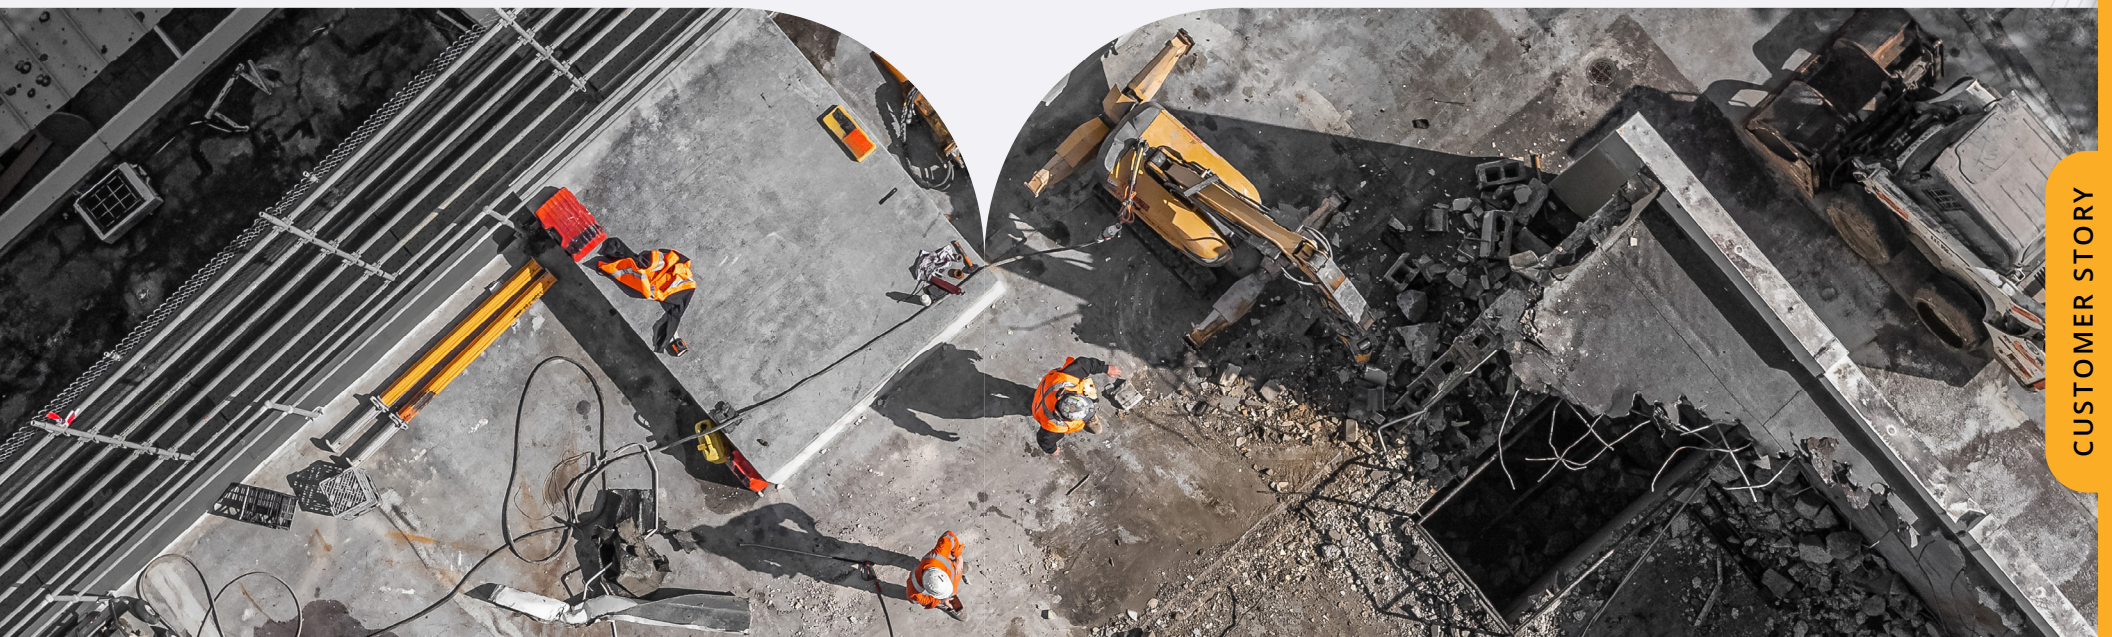

- Headquartered in Phoenix, Arizona
- One of the largest non-profit health systems in the United States
- Operates 28 acute-care hospitals, long-term care centers, outpatient surgery centers, and other services across 7 states
- Averages $1.6-1.8 billion in active projects

Directive and projects

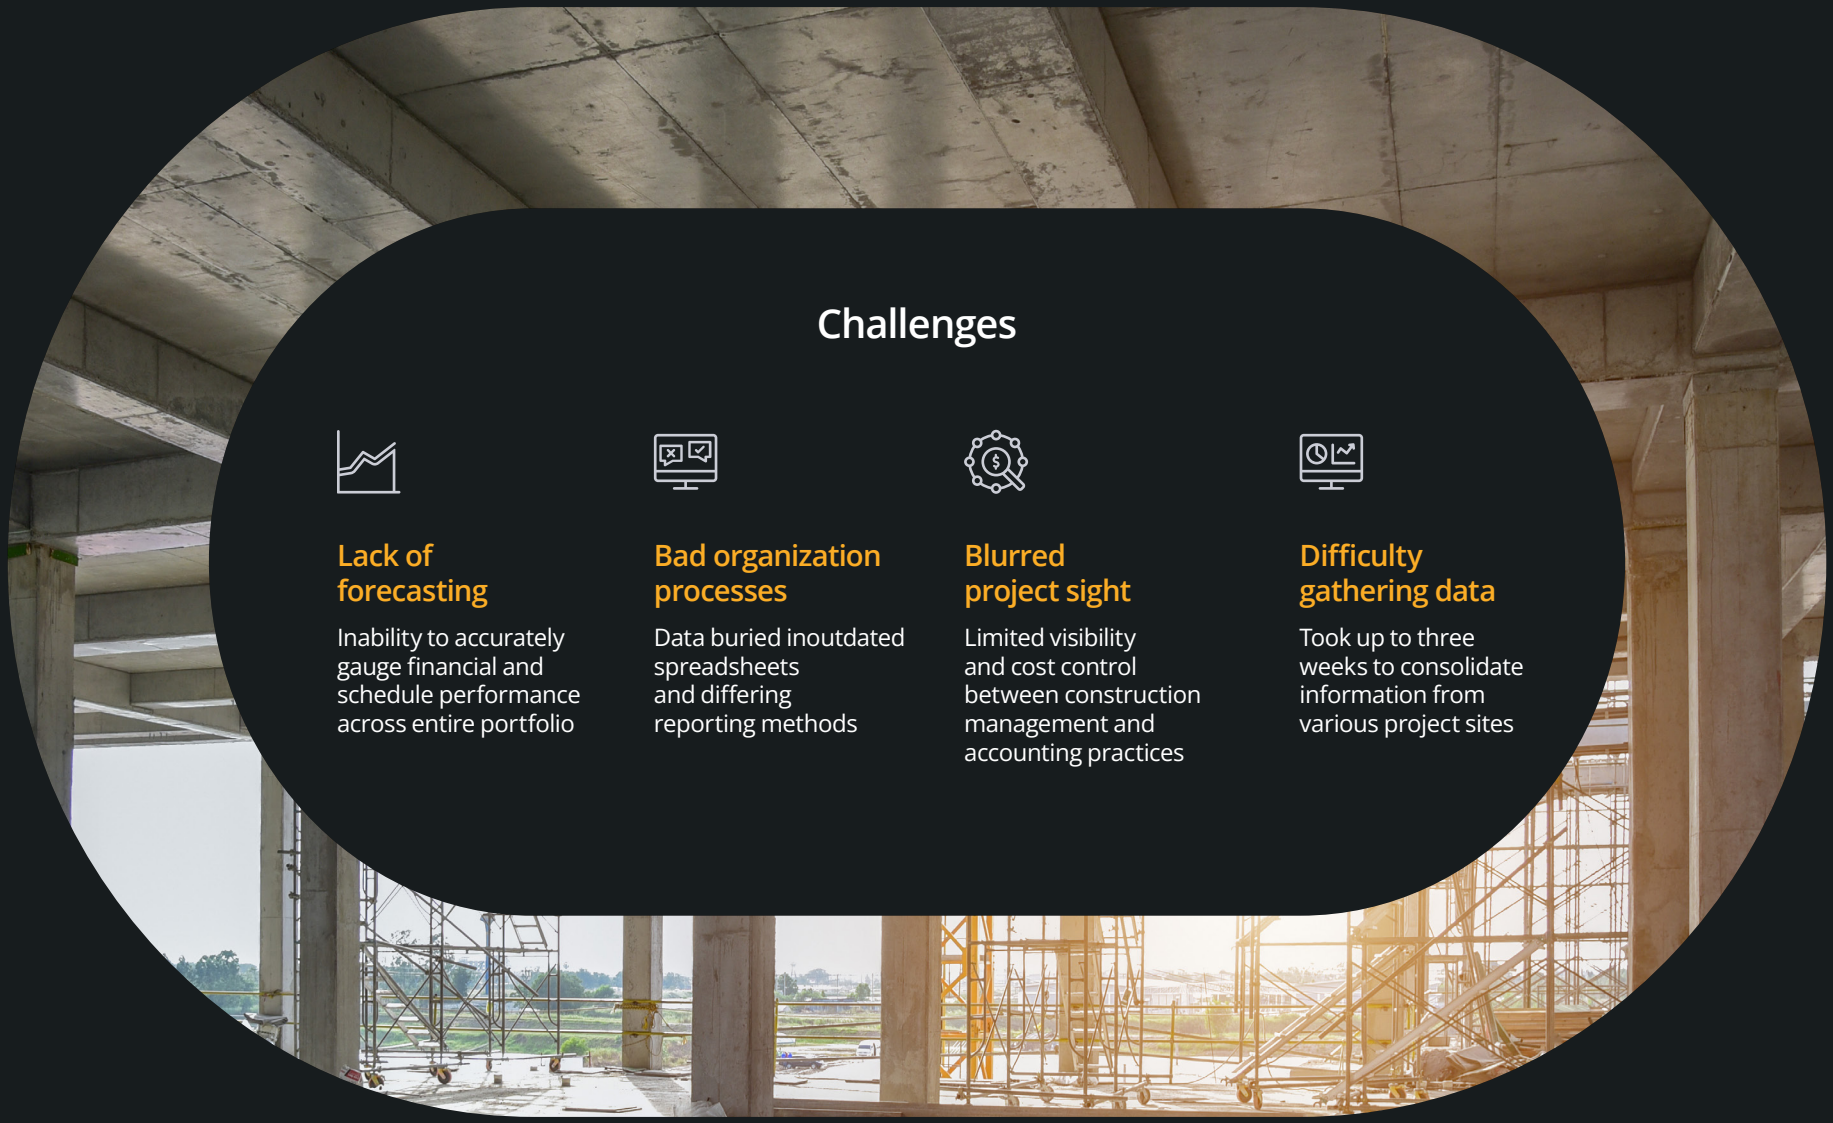

- Ambitious growth plans including new medical centers, new campuses, major additions to existing campuses, greenfield sites, a new children's hospital, and hundreds of small and medium sized projects
- Up to 190 active projects ongoing at any one time

> It was really hard to get a good picture, a timely picture. We were using a variety of spreadsheets and **different methods** to track our costs."

Kip Edward
VP of Design and Construction

CUSTOMER STORY

Challenges

Lack of forecasting

Inability to accurately gauge financial and schedule performance across entire portfolio

Bad organization processes

Data buried inoutdated spreadsheets and differing reporting methods

Blurred project sight

Limited visibility and cost control between construction management and accounting practices

Difficulty gathering data

Took up to three weeks to consolidate information from various project sites

Solutions

Trimble® Unity Construct to align construction management and reporting practices

Handles project accounting, documentation, and issue and schedule management across all project teams

Consolidated software to improve program/project visibility and cost control and eliminate surprise overruns

CUSTOMER STORY

$70 M

Because we have a level of **confidence** on exactly where projects are and how they're going to end up, and because we developed the detailed forecast, we were able to pull $70 million out of [other] projects and redeploy it for other needs. This let us fund a number of things that wouldn't have otherwise been funded right now.

Kip Edward
VP of Design and Construction

CUSTOMER STORY

Benefits

Complete project visibility

Ability to view and accurately track spending, forecast savings, and mine money from active projects to fund new work

Smarter financial practices

Leveraged $70 million in savings from active projects to fund a new cancer center and identified and reallocated an additional $22 million

Increased effiency

Simple and accurate real-time reporting and confidence to meet ambitious growth goals

“The biggest benefit we’ve had is our ability to very accurately manage our project accounting. We have a great deal of confidence in where we are with our projects right now, where before we didn’t.”

Kip Edward
VP of Design and Construction

CUSTOMER STORY

Trimble Unity Construct

Trimble

In 2006, the team at Banner Health moved to Trimble Unity Construct to manage and increase the efficiency of their capital program. Since then, the accurate project accounting afforded by Trimble Unity Construct has been key to their growth and success. They can now accurately forecast, reduce costs, and use the savings for upcoming projects.
