Insta
Blue
Aware™

Made for demanding users

SITUATIONAL AWARENESS | TASK MANAGEMENT | TEAM COMMUNICATION

## OPTIMIZE YOUR OPERATIONS WITH IMPROVED KNOWLEDGE

Insta Blue Aware (IBA) is a map based system which offers tools for situational awareness, task management and secure communication. It is developed for the demanding users like military, first responders, as well as cities and critical infrastructure. Insta Blue Aware helps to control unwanted situations and incidents by providing more clear situational picture and tool for effective coordination.

Insta Blue Aware helps organizations to collect, process and interpret the data from various data sources and transform them into a comprehensive insight of your operations. Real-time data monitoring presented with appealing visualization forms an immediate situational awareness.

ENGAGE YOUR DATA WITH MULTIPLE DATA SOURCES

Multiple integration possibilities between IBA and other systems:

- Military protocols, eg. Friendly Force Information (FFI-MTF)
- Background maps and other geospatial information (WMS, WMTS)
- IBA open API
- Tailored integrations

CONNECTING TEAMS FROM THE FIELD TO COMMAND POSTS

User applications:

- Insta Blue Aware (IBA) = internet browser
- Insta Blue Tracker (IBT) = mobile application for the field worker
- Insta Blue Sky (IBS) = mobile application for the drone pilot
- Utilize common available networks (Internet, 3G, 4G, 5G) or your private networks
