A Word From Our...

Legal Operations
Manager

Dan Chandler

Use of AI

The practice of law is evolving, and our firm is committed to staying at the forefront of innovation to better serve our clients. We are embracing the power of artificial intelligence (AI) not as a replacement for skilled legal judgment, but as a powerful amplifier for it. By integrating sophisticated AI tools into our daily workflow, we are making our legal services more efficient, insightful, and effective.

Efficiency

At its core, AI allows us to analyze vast amounts of information faster and more accurately than ever before. For our legal teams, this translates into significant advantages:

Accelerated Research: AI can sift through decades of case law and legal documents in seconds, identifying relevant precedents and statutes that inform our case strategies.

Streamlined Document Review: Tasks that once took hundreds of hours, like discovery review, can now be completed in a fraction of the time, reducing costs and freeing up our attorneys to focus on high-level analysis.

Enhanced Accuracy: AI helps minimize human error by identifying inconsistencies and key details across thousands of pages of documents, ensuring we don't miss a critical piece of evidence.

We have invested in a suite of AI platforms to empower our legal professionals. Our firm provides our teams with secure, enterprise-level access to:

Google Gemini: A powerful, multimodal AI model that assists with complex reasoning, drafting communications, and summarizing intricate legal concepts.

NotebookLM: Specialized research and writing assistant that allows our teams to build an AI-powered knowledge base from case-specific documents. This tool can review thousands of pages of discovery in a fraction of the time it takes a person.

Lexis AI+ with Protege: An advanced legal AI assistant specifically designed for tasks like legal research, document analysis, and brief drafting.

AI in Action

We are already seeing the incredible value these tools bring to our practice. For instance, some of our legal teams are using NotebookLM to manage discovery reviews. By uploading depositions, contracts, and other evidence, the team can quickly query the entire document set, uncover connections, and build a comprehensive case timeline.

We've implemented a highly efficient workflow using Lexis AI+. Our talented paralegals now upload all court pleadings for a new matter into the system. The AI generates a detailed report, including a summary of arguments, key legal citations, and potential weaknesses. This report is then provided to the assigned attorney, giving them a significant head start on developing a strategic response.

Confidentiality

We want to be unequivocally clear about our commitment to data security. We have a strict policy regarding the use of these AI platforms. **None of these systems uses our firm's or our clients' confidential data to train their models.** We utilize secure, private instances of these tools that ensure all proprietary and privileged information remains completely protected and isolated. By integrating these advanced technologies, we are not just keeping pace with the future— we are defining it. Our investment in AI is an investment in providing clients with the most effective legal representation possible.

Our Team

A Milestone Moment

Pictured (from left) **Jon Topolewski**, client **Rhonda**, and **JaLen Ayers**, celebrating a big win! Rhonda was seriously injured in a road rage accident at King Soopers, leaving her with multiple injuries and a challenging recovery ahead. The Personal Injury Team worked diligently to secure the outcome she deserved. Jon and JaLen were proud to present Rhonda with a large check at a small gathering with her family at the Highlands Ranch office.

Courts in the Community

Photo Courtesy: Moffat County School District

Attorneys **Jon Topolewski** and **Matt Hamblin** recently participated in the Courts in the Community program, an educational initiative that brings the Colorado judicial system to high schools across the state. Students get a firsthand look at real oral arguments, see how cases are decided, and learn how disputes are resolved in a democratic society. The program also gives students the opportunity to meet judges and attorneys, ask questions, and gain insight into careers in law.

In the Media

A pending case in El Paso County District Court is attracting Denver-area media attention because its ruling could set a precedent for HOA accountability in Colorado. Homes.com and **The Denver Post recently interviewed Robert Schifferdecker**, who is representing 21 of the 150 homeowners in the Soaring Eagles Townhomes HOA case. A \$21,000 surprise bill sent to each home sparked the dispute. The HOA issued the special assessment to pay for a \$3 million insurance deductible for roof repairs. However, the community's declaration limits the HOA's insurance deductible to no more than \$10,000. Homeowners say the HOA violated its own rules by approving the new high-deductible insurance policy without considering cheaper alternatives or notifying them.

Customer Service Appreciation Week

A Week Full of Fun and Festivities

Customer Service Appreciation Week was packed with exciting events! The heat was on during the Chili Cook-Off, where team members brought their best recipes and the competition was fierce. Congratulations to the winners: Amanda DeLaGarza took first place, Arendi Reynoso claimed second, and Alex Lowe rounded out third with their delicious entries.

Celebrations continued with "Pet Paradise," showcasing photos of team members' adorable furry friends on the pet wall. The "Guess the Baby" photo contest had everyone laughing with a gift card going to the lucky winner. A colorful candy bar, themed lunches, and plenty of treats at the "Coffee Corner" and "Fiesta Friday" stations kept the festivities going.

During the festivities, team members won a few gifts along the way! From left to right: **Dianna Sanchez**, who won a Starbucks gift card; **Daymara Rosas**, who received an Amazon gift card; **James Gilchrist**, who won a Cold Stone gift card; and **Rena Williams**, who took home a DoorDash gift card. Thank you all for your hard work and dedication—your outstanding service makes a difference every day!

Happy Anniversary

Pet-torneys of the Month: Aspen & Tim

🐾 Meet our Pet-torneys of the Month! 🐾

Aspen (top picture) and Tim! Aspen is a feisty 9-month-old who traveled from Montana to find her furever home. She loves sniffing flowers on walks, watching airplanes soar overhead, and playing with her toys —though sharing

with her big brother isn't her favorite! Tim, a 5-year-old rescue from Kansas, is a devoted big brother. He loves his toys, naps, and keeping a watchful eye on Aspen. Together, they bring energy, love, and a little mischief to every day!

Want to see your pet featured? Email Isabella a photo of your pet and tell her a little bit about them!
