

## DIRECTIONAL LEDS

### ED5051 SERIES

#### SAE Class I Single-Colour Grille Mount

The ED5051 Series directional LED is great for hard-to-mount applications including the grille area or rear hatch and comes with 3 mounting options. SAE Class I light output, synchronisation capability and the choice of 18 flash patterns for dual-colour allows the creation of an attention-getting, multi-colour warning system with half the number of lights typically required. Each model can be programmed to flash each colour option individually or alternate colours.

#### Models

PART NO.	COLOUR	VDC	AMPS
ED5051A	Amber	12-24	0.75
ED5051W	White	12-24	0.75
