Mirror Heads and Brackets

The Britax brand is a leader in commercial mirror brands in Australia

The Britax mirror range covers a massive cross-section of applications from light commercial and utility vehicles to road freight, agricultural and construction vehicles.

The Britax mirror range offers an extensive variety of fitments with adjustable brackets plus a range of stickon or bolt mount spotter mirrors.

The Britax mirror range features application flexibility

Even though the Britax mirror range is divided out by most common application, almost all of the mirror heads can be adapted to suit most applications.

For example, if a West Coast type truck operator likes the look and functionality of a European or Japanese style mirror head, the Britax range includes brackets and adaptors to assist with a smooth transition.

The Agriculture and general purpose range is the most flexible, with some of the smaller tractor mirror heads also being suitable for many Utility applications or used as additional spotter mirrors on large European trucks.

There are no hard and fast rules as to which mirror you should use. In some cases, it all comes down to which features, and look, will best suit your application.

Britax convex mirrors explained

Britax convex mirrors are curved to different degrees using a radius number—the sharper the curve, the wider the angle of vision:

e.g. a 300mm height R1200 mirror appears only slightly curved as it's a section of a larger theoretical circle

R = Radius (spherical) e.g. R400 = a 400mm radius

R1800 is the least curved mirror (bigger number, less curve) R400 is the most curved mirror (smaller number, more curve)

This conforms to the EEC Directive 88/321 and ECE Regulation 46.01

Icon Guide

For Electric, Manual and Heated mirrors and spotters

This symbol indicates this mirror head can be electrically adjusted using a wired controller

This symbol indicates this mirror head can only be adjusted manually by hand

This symbol indicates mirrors with an inbuilt heater function, usually 24V

Mirror Bracket

Black Steel Adjustable Mirror Bracket to Suit West Coast Style Trucks

Design Features

- Galvanised powder coated black steel frame and mounting brackets
- Suits West Coast Mirror heads and other universal applications
- Adjustable height for 11" to 18" mirror heads
- Universal mounting brackets, position locking

Door reinforcement kit available for lower door mounting bracket: 1421190

Reversing Safety Mirror Convex Glass Radius 400

1441017

Design Features

- Easy installation (no pilot holes required)
- Angle adjustable
- Wide and safety view
- Caravan or trailer aid
- H 172mm x W 142mm
- Clamp on 300mm arm

Part Numbers

1441017 Exterior Reversing Mirror

Towing Mirror

ABS Body Mirror Head Adjustable Steel Frame

Design Features

- Strap-on universal towing mirror
- Fast and easy to fit and remove
- Resists vibration when mounted
- Fully adjustable strong arms, W 320-480mm
- Ratchet adjustable hold down strap, door H 1metre
- Strong ball joint on mirror head, D 8mm mount

Part Numbers

1441020 Steel Heavy Duty Flat Towing Mirror
1441006 Steel Hook & Strap for plastic outer
1441122 Replacement Mirror Head

Strap and hook to suit doors with outer plastic panels. Suits heavy duty mirror assembly: 1441006
