7160 Reflex SAE Class I LED

Level 3

Permanent Mount Only

The 7160 Series Reflex® LED beacon provides the ultimate level of power, versatility and style available in an LED beacon. The latest high intensity LEDs combined with reflector technology produce a powerful, SAE Class I/Cal Title 13, warning signal in a light that also offers premium features including 23 flash patterns, hi/lo intensity control, synchronisation capability, plus simulated rotate. Low amp draw, zero maintenance and even CISPR 25 (Level 3) makes this a great option for anyone on any worksite where efficiency is key. Furthermore it's backed by a 5 year warranty making this an obvious choice to replace strobe or rotating lights.
