## How It Works

This Policy is designed to provide high quality dental care while controlling the cost of such care. To do this, this Policy encourages a Covered Person to seek dental care from Dentists and dental care facilities that are under contract with Guardian's dental preferred provider organizations (PPOs), which is called DentalGuard Preferred.

The dental PPO is made up of Preferred Providers in a Covered Person's geographic area. Use of the dental PPO is voluntary. A Covered Person may receive dental treatment from any dental provider he or she chooses. And he or she is free to change providers at any time. When You enroll in this Policy, You and Your covered dependents receive: (1) a dental insurance ID card; and (2) information about current Preferred Providers.

This Policy usually pays a higher level of benefits for covered treatment furnished by a Preferred Provider. Conversely, it usually pays less for covered treatment furnished by a Non-Preferred Provider.

A Covered Person must present his or her ID card when he or she uses a Preferred Provider. Most Preferred Providers prepare necessary claim forms, and submit the forms to Us. We send the Covered Person an explanation of this Policy's benefit payments. But, any benefit payable by Us is sent directly to the Preferred Provider.

What We pay is based on all of the terms of this Policy. Please read this Policy carefully.

A Covered Person may call Guardian at the number shown on his or her ID card should he or she have any questions about this Policy.

Please review the coverage, exclusions and limitations. Some services require prior authorization.

Covered charges are the charges listed in the applicable fee schedule the Preferred Provider Dentist has agreed to accept as payment in full, for the dental services included in the List of Covered Dental Services below.

**Treatment Plan**

A treatment plan should always be sent to us before Orthodontic Treatment starts.

**How We Pay Benefits for Orthodontic Services**

Using the Covered Person's original treatment plan, we calculate the total benefit we will pay. We divide the benefit into equal payments, which we will spread out over the shorter of: (a) the proposed length of treatment; or (b) two years.

We make the initial payment when the active orthodontic appliance is first placed. We make further payments at the end of each subsequent three month period, upon receipt of verification of ongoing treatment. But, treatment must continue and the Covered Person must remain covered by this Plan.

We don't pay for orthodontic charges incurred by a Covered Person prior to being covered by this plan. We limit what we pay for Orthodontic Treatment started prior to a Covered Person being covered by this plan to charges determined to be incurred by the Covered Person while covered by this Plan. Based on the original treatment Plan, We determine the portion of charges incurred by the Covered Person prior to being covered by this Plan, and deduct them from the total charges. What we pay is based on the remaining charges. We limit what we consider of the proposed treatment plan to the shorter of the proposed length of treatment, or two years from the date the Orthodontic Treatment started.

The negotiated discounted fees for orthodontics performed by a Preferred Provider include: (a) treatment plan and records, including initial, interim and final records; (b) orthodontic retention,

including any and all necessary fix and removable appliances and related visits; and (c) limited, interceptive and comprehensive orthodontic treatment, with associated: (i) fabrication and insertion of any and all fixed appliances; and (ii) periodic visits.

There is a separate negotiated discounted fee for Orthodontic Treatment which extends beyond 24 consecutive months.

The negotiated discounted fee for orthodontics performed by a Preferred Provider does not include: (a) any incremental charges for orthodontic appliances made with clear, ceramic, white lingual brackets or other optional material; (b) procedures, appliances or devices to guide minor tooth movement or to correct harmful habits; (c) retreatment of orthodontic cases, or changes in Orthodontic Treatment necessitated by any kind of accident; (d) replacement or repair of orthodontic appliances damaged due to the neglect of the patient; and (e) orthodontic treatment started before the member was eligible for orthodontic benefits under this Plan.
