How It Works

This Policy is designed to provide high quality dental care while controlling the cost of such care. When You enroll in this Policy, You and Your covered dependents receive a dental insurance ID card.

A Covered Person must present his or her ID card when he or she uses a dental provider. Most dental providers prepare necessary claim forms, and submit the forms to Us. We send the Covered Person an explanation of this Policy's benefit payments. Any benefit payable by Us is sent directly to you or the dental provider if you have authorized payment to be sent to your dental provider.

What We pay is based on all of the terms of this Policy. Please read this Policy carefully.

A Covered Person may call Guardian at the number shown on his or her ID card should he or she have any questions about this Policy.

Please review the coverage, exclusions and limitations. Some services require prior authorization.

Treatment Plan

A treatment plan should always be sent to us before Orthodontic Treatment starts.

How We Pay Benefits for Orthodontic Services

Using the Covered Person's original treatment plan, we calculate the total benefit we will pay. We divide the benefit into equal payments, which we will spread out over the shorter of: (a) the proposed length of treatment; or (b) two years.

We make the initial payment when the active orthodontic appliance is first placed. We make further payments at the end of each subsequent three month period, upon receipt of verification of ongoing treatment. But, treatment must continue and the Covered Person must remain covered by this Plan.

We don't pay for orthodontic charges incurred by a Covered Person prior to being covered by this plan. We limit what we pay for Orthodontic Treatment started prior to a Covered Person being covered by this plan to charges determined to be incurred by the Covered Person while covered by this Plan. Based on the original treatment Plan, We determine the portion of charges incurred by the Covered Person prior to being covered by this Plan, and deduct them from the total charges. What we pay is based on the remaining charges. We limit what we consider of the proposed treatment plan to the shorter of the proposed length of treatment, or two years from the date the Orthodontic Treatment started.

Limitations

Teeth Lost, Extracted or Missing Before A Covered Person Becomes Covered By This Plan: A Covered Person may have one or more congenitally missing teeth or may have had one or more teeth lost or extracted before he or she became covered by this Plan. We do not cover charges for a Dental Prosthesis which replaces such teeth unless the Dental Prosthesis also replaces one or more eligible natural teeth lost or extracted after the Covered Dependent became covered by this Plan.
