How It Works

This Policy is designed to provide high quality dental care while controlling the cost of such care. To do this, this Policy encourages a Covered Person to seek dental care from Dentists and dental care facilities that are under contract with The Guardian Life Insurance Company of America's dental preferred provider organizations (PPOs), which is called DentalGuard Preferred.

The dental PPO is made up of Preferred Providers in a Covered Person's geographic area. Use of the dental PPO is voluntary. A Covered Person may receive dental treatment from any dental provider he or she chooses. And he or she is free to change providers at any time. When You enroll in this Policy, You and Your covered dependents receive: (1) a dental insurance ID card; and (2) information about current Preferred Providers.

This Policy usually pays a higher level of benefits for covered treatment furnished by a Preferred Provider. Conversely, it usually pays less for covered treatment furnished by a Non-Preferred Provider.

A Covered Person must present his or her ID card when he or she uses a Preferred Provider. Most Preferred Providers prepare necessary claim forms, and submit the forms to Us. We send the Covered Person an explanation of this Policy's benefit payments. But, any benefit payable by Us is sent directly to the Preferred Provider.

What We pay is based on all of the terms of this Policy. Please read this Policy carefully.
A Covered Person may call The Guardian Life Insurance Company of America at the number shown on his or her ID card should he or she have any questions about this Policy.

Please review the coverage, exclusions and limitations. Some services require prior authorization.

Covered charges are the charges listed in the applicable fee schedule the Preferred Provider Dentist has agreed to accept as payment in full, for the dental services included in the List of Covered Dental Services below.

A dental service received through the use of audio-visual communication, sometimes called teledentistry, will be considered for benefits just like an in-person service. Teledentistry is provided to you at a different physical location than the dentist, or health professional acting under the delegation and supervision of a dentist, using telecommunications or information technology.
