

What's included:

Nokia FastMile 5G
Gateway 12 Device +
Pre-Inserted SIM Card

Power Adapter

Set up your 5G Home Internet in a few simple steps!

Step 1: Activate your SIM card

Before setting up your device, activate your 5G Home Internet SIM card (already pre-inserted) by visiting freedommobile.ca/activation

To begin activation, enter your SIM Number and Phone Number.

- 1. SIM Number** – Found on your [packing slip](#), starting with 891490*****
- 2. Phone Number** – Found in the [Critical Information Summary](#) document included in your [Freedom Mobile agreement](#) email.

You have 30 days to activate your SIM card. For help, visit freedommobile.ca/5g-home

Step 2: Position your Nokia Gateway

Place the Nokia Gateway device in a spot where you receive strong reception on your Freedom Mobile phone, such as near a window or high on a shelf.

Step 3: Download the 'Nokia WiFi' app

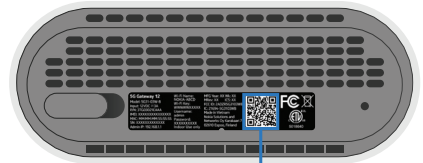

Using your phone or tablet, download the 'Nokia WiFi' app.

Step 4: Set up using the 'Nokia WiFi' app

In the 'Nokia WiFi' app, tap 'Get Started'.

- › For quick setup, choose the 'Scan code' option.
[Scan the QR code on the bottom of the device.](#)
- › If the quick setup option fails, choose the 'No QR code? Enter manually' option. Choose '4G/5G Gateway', then 'FastMile 5G Gateway 12'.

Follow the instructions in the app to complete the setup and connect to Wi-Fi.

TIPS: After turning on the device, the LED light will blink while it searches for signal. This may take several minutes. You can connect to Wi-Fi once the LED light turns solid.

To connect to Wi-Fi, use the '[Wi-Fi Name](#)' and '[Wi-Fi Key](#)' printed on the bottom of the device.

Change the Wi-Fi Network Name and Password

You can change your Wi-Fi network name and password using the Nokia WiFi app or your web browser. For detailed instructions and customer support, go to freedommobile.ca/5g-home

You are all done! Simply connect your connected devices to the Wi-Fi network to start using the service.
