

DEKI ALEM

Deki Alem are almost impossible to put in a box, with a boundless drive and uncompromising energy, the twin duo from Sweden have created new paths for alternative music where their color palette feels infinite.

There is an uncomfortable honesty and highly emotional masculinity in the way Deki Alem mixes subgenres such as drum & bass, dance and grunge with rap.

After the acclaimed debut EP 'Among Heads', the brothers have been supporting act for Gorillaz and toured in Amsterdam, London & Paris.

In 2023 Deki Alem will release their sophomore EP 'Fluent Stutter'.
