

TERRA**CAT**

REPAIR OPTIONS

Terra Cat's repair options are designed to provide you with the best solution for your business. Whatever your circumstances might be, we have a broad range of repair options to help you save time and money.

Repairing before failure is the key to maximising availability and uptime while minimising costs. Once a component fails, your choices become limited. Repairing before failure can reduce costs by two to three times the price of after-failure.

FOUR FACTORS TO CONSIDER WITH ENGINE REPAIR OPTIONS

1 OWNERSHIP

How long do you plan to own the machine?

2 UTILISATION

How much/often do you use the machine?

3 AFFORDABILITY

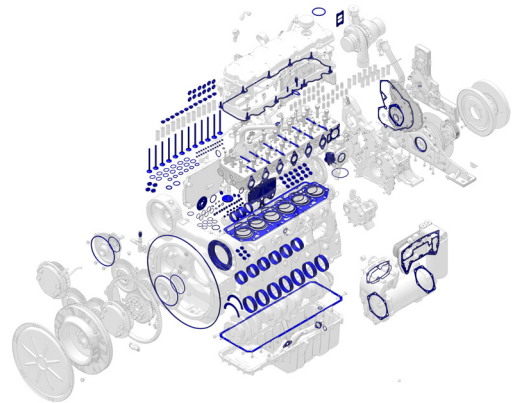

What is your expectation with regard to price?

4 TURNAROUND

How quickly does your machine need to get back to work?

BENEFITS OF ENGINE REPAIR OPTIONS

- Deliver on time and at a fixed price
- Extends life of engine by repairing before failure
- Reduce oil consumption and smoke
- Replaces parts designed to wear out the fastest, protecting other more expensive components
- Restores power
- Can be tailored to individual requirements

THE TERRA CAT ADVANTAGE

- 12 months warranty on parts and labour
- Repairs performed by Caterpillar certified technicians using Caterpillar tooling
- Dedicated Component Rebuild Centre
- Genuine Cat® parts
- Branches across New Zealand
- Finance options available from 0%
- Plan ahead and save when forecasting repairs
