

MAXIMISE UPTIME. IMPROVE PRODUCTIVITY. REDUCE COSTS.

What if planned maintenance gave your up-time the edge?

What if your phone monitored machine health,
your parts were delivered on schedule,
your owning and operating costs stayed down
and your equipment stayed in top condition?

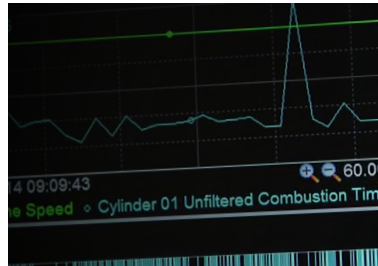

Terra Advantage is a preventative maintenance and support program that ensures you have the right level of support for your business. Less stress and more up-time so your machine can get right to work - and you can get back to your life.

Easy Maintenance

Genuine Cat® parts delivered right to your door when you need them or one of our experienced technicians will come and fit them for you.

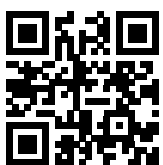

Peace of Mind

Equipment inspections, servicing, and condition monitoring provided by local product experts. Machine hours, location and alerts at your fingertips providing data-driven insights into the health, utilisation and performance of your machine.

Hassle-Free Ownership

Experience the convenience of flexible payment options to match your business needs. Know what your costs will be with maintenance pricing fixed for the calendar year.

Essentials

Enables you to manage and service your equipment on-time. Terra will deliver genuine Cat parts when you need them, along with critical machine health alerts, technical support and training.

Performance

Lets you focus on operating your business while Terra takes care of your equipment maintenance at planned service intervals. You get all the benefits of Essentials + dealer trained technicians, Tier II Condition Monitoring and fluid analysis (valued at \$400 per month per machine) providing insights into oil, coolant, components and more.

Confidence

Gives you total peace of mind. Terra will perform all maintenance and servicing, provide lifecycle management and cover for eligible repairs - so you maximise the productivity and value of your equipment.
