Graduate School USA Aligned Courses

DoD has aligned over 85 active Graduate School USA courses with its Financial Management and Leadership competencies. Each of these courses is available for individual registration or for on-site delivery nation- and world-wide. We can help you meet your certification requirements cost-effectively and conveniently.

DoD has aligned some of our courses that are no longer active. Past completion of one or more of these now inactive courses may also help you meet certification requirements.

Our experienced curriculum managers will work with you at your convenience to help you select courses that develop the critical competencies you and your staff need for certification. If you have questions, or you want to discuss your requirements with a Graduate School USA Curriculum Manager, please call **888.744.GRAD**. We are happy to help you find the right training solutions!

Disclaimer: These courses have been aligned by the DoD, Office of the Under Secretary of the Comptroller, to the DoD-approved Financial Management and Leadership competencies for the specific area of study. The DoD course alignments serve neither as an advertisement, endorsement, or a recommendation of any privately developed and maintained courses for continuing education.

Since DoD has aligned so many of our courses with the Financial Management and Leadership competencies, we've created an easy-to-use Course Selection Guide to help you identify your options — it's a quick reference to each course and the specific certification requirement it meets. This is a handy guide for Financial Managers interested in their own training and for training decision-makers looking to set up training for others as well.

We are ready to work with you to identify your training needs and help you complete the requirements of your certification level!
