How to Play - Slot Games

Slot games are, similar to movies, often based on characters and a mission. Gonzo's Quest is one of the favorite slot games on Wunderino. You will be searching for the legendary golden city of Eldorado in this game.

A random-number generator certified by independent 3rd party testing agencies generate the outcome of each bet.* On the jackpot slot games you can win several million euro's on one spin!

A. Before playing, determine your bet-size by adjusting the Bet Level and/or Coin Value

A. At the bottom of the game, you can see the size of your bet, your total balance and the amount of any winning:

A. Start playing by pushing the "Bet" button. Good luck!

SLOT GAME SETTINGS:

1. Bet-level : The number of gambling coins per line. You can choose from level 1 to 5. (Bet level 1 = 20 coins)
2. Coin value : You can set a value per coin from €0.01 to €1.0
3. Balance: This is the total money you have in your account.
4. Winning money: This is the money you won on a single bet.
5. Autoplay: Use this feature to let the game automatically play a number of rounds without you having to push "Bet" every time.
6. Bet: Push the Bet-button to play.
7. Maxbet: Push the Maxbet-button to play for the highest possible amount on the game.
8. Information-button: Click here to learn more about the rules and possible winning-combinations for this game.
