

Market Notice

To: Coinbase Derivatives Internet Participants
From: Derivatives Command Center
Notice: 26-16
Date: 04/01/2026
Subject: New IP Range

Summary

Effective **May-1, 2026 at 16:00 CT**, Coinbase Derivatives, LLC (CDE) is onboarding an additional Internet Service Provider as part of ongoing efforts to enhance network resilience and performance. At this date, certain network traffic originating from CDE may be routed from a new IP address range. Participants who maintain IP-based access controls should review and update their configurations prior to the effective date. This change does not impact clients connecting over cross connects.

IP Ranges

<u>Additional IP Range</u>
64.124.234.24/29
<u>Existing IP Ranges (no change)</u>
208.52.130.0/24
76.74.1.114/32
208.48.166.136/29

Required Action

If your organization maintains IP-based access controls, firewall rules, or allowlists that filter inbound traffic from Coinbase Derivatives Exchange for the "Existing IP Ranges" above, you must whitelist the new IP before May-1, 2026 to avoid service disruptions.
