Additionally, as with all trading on the Exchange, trading in the Program’s products will be subject to monitoring and surveillance by the Market Regulation Department, which has the authority to investigate and enforce Exchange rules, as described in Chapter 7.

Core Principle 9 -- Execution of Transactions

The Program’s products are listed for trading on the Exchange’s trading system, which provides for efficient, competitive, and open execution of transactions pursuant to the Exchange Rulebook.

Core Principle 12 -- Protection of Markets and Market Participants

Chapters 4 and 5 of the Rulebook require all market participants, including those participating in the Program, to observe high standards of integrity, market conduct, commercial honor, fair dealing, and just and equitable principles of trade and prohibits, among other things, fraud, non-competitive trading, market manipulation, and abusive and disruptive trade practices. As with all contracts traded on the Exchange, trading in the Program's products will be subject to monitoring and surveillance by the Market Regulation Department and compliance with the Program will be monitored and enforced by the Exchange.

Core Principle 18 – Recordkeeping

Records related to the Program will be maintained by the Exchange in compliance with its recordkeeping policies and the requirements of the Commodity Exchange Act and CFTC Rules.
