

# SunPower® Complete Confidence Warranty

A better warranty starts with a better product

## 25 years

- Panels (with Power Production)
- Microinverters
- Racking

## 10 years

- Monitoring hardware

\*Smartphone and laptop not included.

Every part of your SunPower Equinox® system is meticulously designed to work perfectly together, and rigorously tested for long-term reliability. That's why the **SunPower® Complete Confidence Warranty** is the only warranty to cover your whole system (not just the panels).

## Comprehensive System Warranty

SunPower stands behind your entire system—including power production—so you only have one company to call if you ever need assistance.

### More comprehensive coverage

25 for everything on your roof (including panels, microinverters and racking).

### AC and DC System Warranty

First and only warranty that covers both AC and DC systems, including panels and microinverters.

## Comprehensive Service Warranty

If you experience issues with your system within the warranty period, SunPower will send a SunPower-certified professional to fix the issue—hassle free.

### Easy to reach

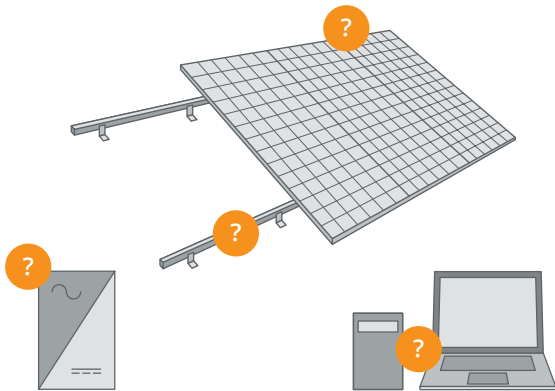

Our nationwide network means a SunPower-certified professional is nearby. And we're always just a call away at 1-800-SUNPOWER.

### Labor, shipping, parts—it's all included

If something needs to be repaired or replaced, SunPower makes it easy.

## Other Home Solar Company Warranty

Each part is made and warranted by a different manufacturer.

## SunPower System Warranty

One company covers everything.

\*Smartphone and laptop not included.

### Pitfalls of other home solar company warranties:

- Some companies require that you pay to ship new panels
- Some companies require that you pay to package and ship defective panels
- Some companies require that you pay the manufacturer a testing fee if they don't find a defect
- Components from multiple manufacturers makes it difficult to figure out who to contact
- Hidden exceptions may not cover shaded panels or installations near the sea
