

Supplier Diversity

We are proactively reaching out to minority, women, small, and veteran-owned enterprises to support local economic development in communities around the world. In the USA, we conduct extensive outreach to identify diverse businesses interested in working with SunPower. We also work with industry trade associations, independent business development councils, and national diverse supplier databases to develop our network of diverse suppliers.

Below are examples of the types of products or services SunPower often sources through our network of suppliers:

- Concrete
- Metal Erection (Install)
- Erosion Control
- PV Commodities (e.g., Glass, Wire, Cables, Aluminum)
- Earthwork
- PV Installation
- Electrical
- Reinforcing
- Fencing
- Structural Steel (Fabrication & Install)
- General Contractor
- Surveying
- Masonry
- Trenching

If you would like more information about working with SunPower, please contact us at Supplier_Diversity@sunpower.com or call us at 1-800-SUNPOWER to speak with a Supplier Diversity representative.
