## **I. YOUR RIGHTS**

This section presents the rights that you can exercise in relation to your Personal Data. The various rights are not absolute; each is subject to certain exceptions or qualifications in accordance with the GDPR and other generally applicable provisions of data privacy law.

- **The right to be informed** – you have the right to be provided with clear, transparent and easily understandable information about how we use your Personal Data. This is the purpose of this Policy and the legal notices and other information that are provided to you.
- **The right of access** – you have the right to know whether we process your Personal Data and to receive about some other information (similar to that provided in this Policy) about how it is used. You also have the right to access your Personal Data that we own by requesting a copy of it. This is so you are aware and can check that we are using your information in accordance with data protection law. We can refuse to provide information where doing so may reveal Personal Data about another person or would otherwise negatively impact another person's rights.
- **The right to rectification** – you can ask us to correct your Personal Data if it is inaccurate or incomplete (e.g., if we have the wrong name or address for you).
- **The right to erasure** – also known as the 'right to be forgotten'; this right enables you to request the deletion or removal of your Personal Data where, for example, we no longer need to keep using it or its use is unlawful. However, this is not a general right to erasure; there are some exceptions, e.g., where we need to use the information in defence of a legal claim or to comply with a legal obligation.
- **The right to restrict processing** – you have the right to 'block' or prevent the further use of your Personal Data in a request for rectification or as an alternative to erasure. When processing is restricted in this manner, we can still store your Personal Data but cannot use it any more.
- **The right to data portability** – you have the right to obtain some Personal Data to have it reused for your own purposes or by different organisations (which are separate Data Controllers). This applies only to your Personal Data that you have provided to us, that we are processing with your consent and for the purposes of contract fulfilment, and which is being processed by automated means. In this case, we will provide you with a copy of your data in a structured, commonly used and machine-readable format or, where technically feasible, we may transmit your data directly to a third-party Data Controller.
- **The right to object** – you have the right to object to certain types of processing, on grounds relating to your particular situation, at any time insofar as the processing takes place for the purposes of legitimate interests pursued by Terumo Neuro Europe or by a data recipient. We will be allowed to continue to process the Personal Data if we can demonstrate compelling legitimate grounds for the processing that override your interests, rights and freedoms, or if we need this for the establishment, exercise or defence of legal claims. If you object to the processing of your Personal Data for direct marketing purposes, we will no longer process your Personal Data for such purposes.
- **The right to withdraw consent** – where we process your Personal Data on the basis of your consent, you have the right to withdraw your consent at any time. However, this withdrawal is not retroactive; processing that occurred beforehand remains lawful.
- **The right to issue instructions on the use of Personal Data after your death** – you can instruct us on how to manage (storage, erasure or sharing, for example) your Personal Data after your death. You can change or withdraw these instructions at any time.
- **The right to lodge a complaint** – if you believe that we have not complied with applicable data protection laws, you have the right to lodge a complaint with a competent data protection authority.

## J. HOW TO CONTACT US

If you wish to request further information or exercise any of the above rights, or if you are unhappy with how we have handled your Personal Data, you can contact our Data Protection Officer at [dataprotection@microvention.com](mailto:dataprotection@microvention.com) or write to us at:

Terumo Neuro Europe, 1 avenue Edouard Belin, 92500 Rueil-Malmaison, France

Before assessing your request, we may request additional information in order to identify you. If you do not provide this and we are therefore not able to identify you, we may refuse to fulfil your request.

We will generally respond to your request within one month of receiving it. We can extend this period by an additional two months if this is necessary taking into account the complexity and number of requests that you have submitted.

We will not charge you for such communications or actions we take, unless:

- you request additional copies of your Personal Data undergoing processing, in which case we may charge for reasonable administrative costs,
- you submit manifestly unfounded or excessive requests, in particular because of their repetitive nature, in which case we may either charge for reasonable administrative costs or refuse to act on the request.

If you are not satisfied with our response to your complaint or believe our processing of your Personal Data does not comply with data protection law, you can file a complaint with the competent data protection authority, which is the French Data Protection Authority (*Commission Nationale de l'Informatique et des Libertés*, CNIL).
