How to Get the Best OTO Discounts

When navigating the checkout process, keep an eye out for **exit-intent popups** or temporary coupon codes on the sales pages. Most software launches offer early-bird discount coupons (ranging from **\$2 to \$5 off** on the Front End) or substantial **downsell discounts** (often cutting \$10–\$100 off the OTO prices) if you decline the initial offer on the first pass.

Always check the main sales pages thoroughly before completing your purchase to ensure your discount voucher code is actively applied at checkout.
