For marketers, creators, affiliates, eCom sellers, freelancers, and small business owners, this can help reduce costs while still giving access to many useful AI features in one place.

However, this is an **early bird price**, so it may not stay at **\$14.44** for long. The vendor has mentioned that the price may increase soon, so early buyers get the best value. Anyone interested in **Chat5.5 AI Max** should consider grabbing it while the launch discount is still in effect.
