Deep Dive: How Does It Work?

The beauty of Sphere AI lies in its "command-based" architecture. Instead of navigating through dozens of menus, you interact with a centralized AI assistant.

1. **Selection:** Choose the module you need (e.g., Website Builder or Lead Gen).
2. **Instruction:** Provide a prompt or a keyword. For instance, "Build a tech review site focused on cloud computing."
3. **Refinement:** The AI presents a draft which you can edit using a drag-and-drop interface or by asking the AI to "make it more professional" or "add more images."

This workflow significantly reduces the time-to-market for new affiliate projects or client services.

Sphere AI Pricing & OTO (One-Time Offers)

To get the most out of Sphere AI, it is essential to understand the funnel. While the Front-End (FE) offer is robust, the OTOs unlock the automation and "Unlimited" features that professional marketers require.

Front-End: Sphere AI Core (\$17 - \$27)

The base version includes the dashboard, the website builder, and basic AI content credits. It is perfect for beginners testing the waters.

OTO 1: Unlimited Edition

Removes all restrictions on the number of websites you can build, the number of leads you can generate, and the amount of content you can produce.

OTO 2: Done-For-You (DFY) Setup

The Sphere AI team personally sets up your first three profitable campaigns, ensuring you don't miss any technical steps.

OTO 3: Automation Hub

Allows you to schedule content and lead generation tasks in advance, making the software work 24/7 without manual intervention.

OTO 4: Agency & Reseller Rights

Enables you to sell Sphere AI as a service to local clients or flip the software accounts yourself, keeping 100% of the profit.

Pro-Tip: Keep an eye out for "Bundle Deals" on the sales page, which can often save you up to 60% compared to buying each OTO individually.
