

## QA Engineer

Location: Barcelona, Spain

To apply please send your resume, with the **email subject of QA BCN 2021**, to [careers@telescope.tv](mailto:careers@telescope.tv)

### Job Description

We are looking for a well-rounded QA Engineer to join our team. The ideal candidate would be a quick learner who takes pride in what they do and who will be able to contribute to a diverse group of projects and applications. He or she should be highly motivated and possess a deep understanding of the latest test methodologies and techniques. The QA Engineer will work as part of a team to design, develop, and support a growing number of exciting projects for a wide range of clients, with a focus on web and mobile based user interfaces.

\*This position will be a remote role.

### Responsibilities & Requirements

#### Minimum Qualifications

- Minimum of 1-2 years of Quality Assurance experience in the software industry with emphasis on web and mobile applications.
- Experience in creating and executing test plans for manual, and/or automated testing cycles.
- Strong understanding of mobile and desktop operating systems capabilities, limitations, and end-user navigation.
- Understanding of relevant technologies is a plus: Python, Selenium, Linux, SQL, JSON, XML, RESTful API.
- Experience working with Atlassian products such as JIRA, Confluence, and Bitbucket.
- Excellent communication and organization skills working in a remote environment.
- Able to work independently, self-motivated, detail-oriented, and excellent time management.
- Able to work under pressure with time sensitive deadlines.
- EU work permit.
- Fluent in English.

## Responsibilities

- Perform cross-browser and cross-platform testing of Telescope's web and mobile applications.
- Perform manual and automated testing on Telescope's backend infrastructure.
- Perform detailed investigations and analysis of potential software defects.
- Create detailed and well-structured test plans and test cases.
- Participate in daily scrum meetings and weekly team meetings over various virtual communication methods.

## About Telescope

Where strategy meets technology, you will find Telescope leading the way in audience engagement.

The work environment at Telescope is exciting, engaging, and constantly dynamic. We have major media and brand clients who depend on us year over year to deliver amazing products and support their audience engagement campaigns. We also leverage close partnerships with social networks like Facebook, Twitter and Instagram to deliver best in class fan engagement products.

Telescope Inc. has been responsible for the most successful television and live media participation shows in the last decade: American Idol, The Voice, Dancing with the Stars, America's Got Talent, and MTV Video Music Awards to name a few. We also work with NBA, Sprint, Coca Cola, NASCAR, MLS, NASA, and many others. We power the technology that supports voting, audience engagement, content creation, sweepstakes, and live streaming campaigns. Our employees come from all backgrounds with rich experiences and a fun company culture. Our business is increasingly global, and we have offices in Los Angeles, Chicago, London, and Barcelona.

**Telescope Inc. is an equal opportunity employer** which does **not** discriminate against: race, color, religion, national origin, age, sex, pregnancy, citizenship, familial status, disability, veterans, or any other protected class.
