

UNTHA shredding technology expands sales network in Romania

CRAVCITECH becomes new trading partner for wood shredders

UNTHA, the internationally active premium manufacturer of shredding technology with headquarters in Kuchl near Salzburg, is expanding its distribution network in Eastern Europe. The new partner CRAVCITECH from Braşov/Romania distributes the wood shredders of the Austrian shredder manufacturer.

Josef Gruber, Head of Global Sales and Business Development BU Wood at UNTHA, is pleased about the expansion of the sales network: "The market in Eastern Europe is becoming increasingly relevant for us. That's why it's important to have a strong local partner to present our reliable system solutions for waste wood shredding to customers and to handle projects. CRAVCITECH has already been a renowned supplier in the industry for years and will represent us well in Romania."

CRAVCITECH is the competent contact for shredding solutions from UNTHA in Romania. The dealer has been selling machines and spare parts to wood processing and woodworking companies since 2006 and relies on high-quality manufacturers. The company specialises in special solutions and also offers comprehensive services. "We always find the most efficient solution for our customers and adapt offers individually to their needs. UNTHA's shredders stand for high quality and reliability, so they are the perfect addition to our portfolio. We are looking forward to working with the shredding expert from Austria," says Sebastian Cravenco, Managing Director of CRAVCITECH.

UNTHA shredding technology

Reliable shredding technology that goes back more than 50 years!

UNTHA shredding technology develops and manufactures customised, reliable shredding systems that are used in a wide range of applications, from material recycling to the processing of residual and waste wood and the reprocessing of waste to produce alternative fuels. In this way, the company makes an important contribution towards the conservation of resources and the sustainable processing and reduction of waste.

The company was founded in 1970 and is headquartered in Kuchl near Salzburg. UNTHA has more than 300 highly qualified employees and a worldwide sales network that spans 40 countries on all continents, placing it among the world's leading manufacturers in this growing, future-orientated industry.
