

RAIL NATION – THE RAILWAY STRATEGY GAME

Millions of fans worldwide enjoy the fascination of railways in their free time. In Rail Nation, all strategy gamers and railway fans are given the chance to start up their own railway company, manage lucrative transports on a daily basis and team up in competing associations of up to 25 players

YOU'RE ONLY STRONG AS A TEAM

As the manager of a railway business, the player is responsible for constructing efficient routes, planning schedules and delivering a total of 49 different goods.

Players celebrate their greatest success as part of an association. Cooperation with other players allows for strategic advantages and the achievement of immeasurable glory.

THREE SCENARIOS

Rail Nation offers its players three scenarios. The Classic scenario takes place on a fictional map; the player's goal is to supply their home city with goods and to develop it into a megacity.

The trains move on a realistic map of America in the USA scenario. Thrilling duels are ensured by the competition between East vs West.

The Europe scenario is also set on a realistic map. From Helsinki to Lisbon, Dublin and Moscow - who will upgrade their landmark to the highest level?

AUTHENTIC ENGINES

The player travels through the history of railways in three historic railway eras: steam, diesel and electric. More than 140 original engines from all over the world make the hearts of railway fans leap for joy.

FULL CROSS-PLATFORM EXPERIENCE

Beside the browser version, Rail Nation is also available as an app for both iOS and Android, and supports tablets as well as smartphones. A single account can be accessed from all platforms and the same game can be played wherever and whenever.

Further information about Travian Games GmbH is available at www.traviangames.com.

About Bright Future GmbH

Bright Future GmbH was founded in Cologne at the beginning of 2006 and initially developed different football games on behalf of Electronic Arts. Today the company consists of multiple teams with more than 50 employees and a clear focus on challenging browser and mobile games. More than half of all employees work on 'Rail Nation', while the others work on the gardening simulator 'Miramagia' and as yet unannounced projects. The goal of all Bright Future games is to connect easy access and gaming fun with a great depth of gaming, thereby creating products that guarantee years of fun for their users. In January 2012, Bright Future was incorporated into the Travian Games family as its newest member.
