WELCOME TO CHERRYWOOD VILLAGE

Home is the heart of any village, and there is no place that rings true, more so, than here. Our independent living, assisted living and memory care settings are not like home, they are home. CherryWood Village's amazing campus is filled with dining, entertainment, spiritual, recreational and social opportunities. Vitality is the cornerstone of everything we do because we believe it keeps us all happy, healthy and fulfilled.

INDEPENDENT LIVING

Our independent living options allow our residents to live enriched and fulfilled lives. Without home repair and maintenance, you may find you have more energy to explore that exercise program or hobby you've been yearning for. CherryWood Village homes come in a variety of spacious floor plans, including studio, one-bedroom and two-bedroom apartments. Beyond that, our campus offers penthouses and cottages for those looking for more space and privacy. Our affordable monthly rent includes many services, providing an exceptional value for residents.

ASSISTED LIVING

When regular assistance is necessary to stay on your own, our community offers Assisted Living to help manage day-to-day activities. You and your family will be relieved to see how freeing this assistance makes your daily living. At CherryWood, our assisted living apartment homes located in the beautiful Royal Anne building, are overseen by a kind and loving team that genuinely treats residents like family. It's integrated into the whole campus. You can take full advantage of all the activities, dining opportunities (with full menu choices) and services that make our Village so lively. Let us show you how a little assistance provides more independence.

PARKVIEW MEMORY CARE

Our version of memory care is not like traditional facilities. We worked from the ground up, creating a thoughtfully designed setting that leaves nothing to chance. The bedrooms are laid out with maximum privacy in mind. Our great room's circular path is dotted with various elements that represent familiar neighborhood landmarks such as a chapel, beauty shop and even an old car to sit in and reminisce. Marry this with a fully trained and licensed staff that embodies the Generations vision of 'enhancing lives and celebrating the excitement of living', and you have a setting both residents and their families know they've found a wonderful new home.

VITALITY

At CherryWood Village, Vitality is so much more than physical fitness. Living with Vitality means creating a balanced focus into all areas crucial to wellbeing – mind, body and spirit!

GENERATIONS

REDEFINING RETIREMENT

FAMILY MATTERS

CherryWood Village is a part of a highly respected collection of senior housing properties run by Generations, LLC. Although decades of experience and numerous awards and accolades have identified us as a leader in the industry, it's really our values and adherence to them, that has made us what we are. While we are often imitated, we just can't be replicated. That's because, at the heart of Generations, you'll find a one-of-a-kind management team, spearheaded by the family that began it's work with seniors decades ago. Generations remains family owned and run by a multi-generational executive team that are the progeny of the founders.
