THIS RULES TARIFF APPLIES ON INTERNATIONAL, INTERSTATE AND INTRASTATE TRAFFIC

EFFECTIVE: FEBRUARY 18, 2019

ISSUED BY
MATTHEW BATTEH
DIRECTOR OF PRICING

TARIFF APPLICATION:

In an effort to provide its customers with quality service at competitive rates, certain commodities may be offered to be shipped at less than full value. To ensure customers are fully aware of this and all terms and conditions applicable to their shipments, Saia encourages shippers to review Item 108 and other applicable items of the Saia 170D series rules tariff. Note that, in exchange for the competitive pricing provided by Saia, some items may be subject to limitations of liability, released values or other options specific to a shipment or a commodity. Customers should carefully review Item 108 of this tariff to understand these limitations as well as options for selecting increased liability limits. Customers are further encouraged to evaluate their cargo insurance program so they may tender their goods at the lowest possible overall cost while still being insured for a value consistent with their requirements.

PREFACE

The information contained herein or subsequently added, and any rates or charges contained herein, and/or rates and information in computerized data format, are the sole property of the carrier. The transfer of electronic transmission of this Tariff, in whole or in part, requires prior approval of the carrier.

This Tariff is published and made available to carrier's customers. All rates and quotations are subject to periodic revisions, increases, and restructuring. The Carrier will make every effort to advise the user of record of any rate or rules change. However, it is the user's responsibility to determine the current status of all previously received rates, quotations and information.

The Rules set forth in this Tariff apply on all shipments transported by Carrier, whether interstate, intrastate, or international, exempt or non-exempt from economic regulation, and regardless of origin and destination, unless waived by an authorized company official (Item 75). Pursuant to 49 U.S.C. § 14101(b), the parties expressly agree that the terms of this Tariff control over any conflicting provisions contained in Title 49 of the United States Code, and the parties expressly waive all such conflicting provisions.

ITEM 75 AUTHORITY OF COMPANY PERSONNEL

ONLY Carrier officials or personnel expressly authorized to do so by the Carrier have authority to enter into agreements; alter existing agreements; approve rates or pricing; approve deviations from published, contractual, or agreed rates or pricing; approve adjustments to freight bills or invoices; or take any other action to bind Carrier to contractual terms and conditions. Expressly authorized officials are Carrier personnel with the title of Director, Vice President, or any higher title. Terminal managers, drivers, sales personnel, and other personnel without the title of Director, Vice President, or any higher title are not authorized personnel.

The terms of pricing agreements (tariffs) or contracts issued, agreed to, or published by the Carrier's Director of Pricing supersede any and all verbal or other agreements made by unauthorized or authorized personnel and may not be modified except by written amendment approved by the Director of Pricing.

The terms of this Tariff may be modified or waived only as set forth in this Item 75. Any deviation from the terms of this Tariff or failure to enforce the terms of this Tariff shall not constitute a waiver of the right to enforce such terms in the future, nor shall any course of dealing or course of performance thereby arise.

ITEM 100 GOVERNING PUBLICATIONS

This tariff is governed, except as otherwise provided herein, by the following publications and supplements or successive issues thereof:

<u>KIND OF TARIFF</u>	<u>ISSUING AGENT AND TARIFF SERIES</u>
Classification	NMF 100
Hazardous Material	ATA 111
Class Rates	SAIA 5700
Mileage	HOUSEHOLD GOODS 105

Provisions or conditions of this Tariff will abrogate and supersede those found in the above referenced tariffs which conflict herewith.

ITEM 105 PRECEDENCE OF RATES

Specific rates published for a consignor or consignee who utilizes a warehouse will apply over the warehouse's published rates.

1. The discount, rates, rules or provisions in effect for the payor of the freight charges shall take precedence over and apply in lieu of, any other discount that may be in effect on any single shipment, with the exception of volume rated shipments. On volume shipments the lowest published rate will be applicable.
2. When the Shipper requests an accessorial service on the bill of lading, the Origin Carrier's accessorial charges will prevail if the shipment is prepaid or collect.
3. In the event accessorial services are requested after the original invoice is issued, the delivering carrier's accessorial charges will prevail.

ITEM 106 CANCELLATION OF PRICING PROGRAMS

Items published in the Saia 670 or Saia 270 series tariffs will be subject to cancellation without notice if carrier receives no shipments within a 12 month period.

ITEM 107 CONVENIENCE INTERLINING

In order to provide the most efficient, economical service to the shipping public, Carrier will, from time to time and in its discretion, utilize the service of other motor carriers to achieve the transportation service required for tendered shipment, EXCEPT if bills of lading covering tendered shipments are noted by shippers that "convenience interlining not applicable", convenience interlining will not be utilized. Interchange of freight of service will be at points common to the authorized service of Carrier. Shipments accorded "convenience interlining" shall move on the bill of lading of Carrier, who shall assume responsibility for the lading, and such shipments shall be charged for service performed exclusively by Carrier.

ITEM 108 CARRIER LIABILITY FOR CARGO LOSS & DAMAGE CLAIMS AND LIMITATIONS OF LIABILITY

This Item describes Saia's liability for cargo loss and damage claims and limitations that apply to that liability. Saia's liability and limitations on that liability will vary based on the type of goods shipped, the packaging of the goods, and the pricing selected by the customer. Saia offers its customers options for selecting higher limits of liability, in exchange for additional charges. Customers are encouraged to review this item carefully and to evaluate all options, including the purchase of insurance from independent insurers, to protect their freight.

1. CARGO LOSS & DAMAGE CLAIM FILING

Saia will assume liability for cargo loss and damage claims under the Carmack Amendment to the Interstate Commerce Act, 49 U.S.C. § 14706 et seq. and other applicable federal laws and regulations governing the interstate transportation of freight in effect on the date of the shipment and under the terms and conditions of the Uniform Straight Bill of Lading, except as shown herein, or to the extent otherwise expressly provided in participating tariffs or contracts. The Carmack Amendment and the Uniform Straight Bill of Lading will apply on all shipments, whether interstate, intrastate, or overseas, unless the Carriage of Goods by Sea Act applies by virtue of any contract or authorized bill of lading or by operation of law. To the extent that the provisions of the Carmack Amendment conflict with any provisions of the Uniform Straight Bill of Lading or of this Rules Tariff, such conflicting provisions of the Carmack Amendment are expressly waived pursuant to 49 U.S.C. § 14101(b). Saia's liability for cargo loss and damage begins upon signing the receipt or bill of lading for property it receives for transportation and ends when delivery is completed or when cargo is tendered for delivery. Saia will investigate and dispose of cargo loss and damage claims as set forth in 49 C.F.R. Part 370, and NMF 100 Series, Items 300100 through 300155.

The following additional rules apply:

- A. All claims for loss, damage or destruction must be filed in writing or online by visiting www.saia.com within nine months after delivery or, for non-delivery claims, within nine months after the date of the bill of lading. When claims are not filed within the prescribed times, such claims shall be barred and not paid. Purported claims that do not comply with the requirements of 49 C.F.R. Part 370 will not be considered valid claims.
- B. Any lawsuits for cargo claims shall be instituted against Saia no later than two years from the day when written notice is given by Saia to the claimant that it has disallowed the claim or any part or parts of the claim specified in such notice. Where claims are not filed or lawsuits instituted thereon in accordance with the foregoing provisions, Saia shall not be liable and such cargo claims will not be paid. A claim shall be considered denied when any response other than an allowance of the claim in its entirety is transmitted.
- C. Customer shall not deduct or offset any cargo claim or other alleged claim or debt of Carrier from the charges owed to Carrier unless authorized in writing by Carrier.

2. LIMITATIONS ON DAMAGES

Saia shall not be liable for any loss, damage, or delay caused by an act of God, the public enemy, the governing authorities, the inherent vice of the goods, or the act or default of the shipper, riots or strikes, any related causes, or any other cause recognized by law as relieving the Carrier's liability.

In no case shall Saia be liable, and it hereby disclaims responsibility for any indirect, incidental, consequential, special, punitive, or multiplied damages or other indirect costs, economic loss, penalties, lost profits, fees, interest, or charges of any kind arising from any freight claims filed hereunder or any other acts, including delays or omissions of Saia, whether foreseeable, disclosed or not.

Saia agrees to accept, transport, and deliver such merchandise as Customer may tender to Carrier for transportation in the regular course of Carrier's providing transportation services. Saia shall not be responsible for any damages, direct, indirect or consequential, which are the result of delays in delivery.

Customer shall, at its cost and expense, comply with all applicable federal, state, local and International laws, rules and regulations pertaining to its shipments and shall be responsible for all costs, liabilities, delays, fines and expenses caused by, resulting from or otherwise associated with any noncompliance by Customer or Customer's shipments with any such laws, rules, or regulations. Customer shall also be responsible for Carrier's charges pertaining to any services by Carrier at Customer's request for compliance with any such laws, rule or regulations.

3. GENERAL LIMITATIONS ON LIABILITY AND NOTES

This item explains the overall liability limits and conditions established by Carrier for all shipments tendered to it for transportation. All parts of Item 108 are subject to 1 through 6 below. Other provisions of Item 108 apply where made applicable by their terms.

1- Whether applicable to new, used, or reconditioned articles, and regardless of NMFC released, declared or actual value provisions, Carrier's liability for any loss, damage, theft, or destruction of freight shall not exceed the least of the following:

- A. The actual cost of the goods supported by a certified copy of the original invoice;
- B. The cost of replacement or repair of the lost or damaged cargo;
- C. The lowest limited liability amount specified in the Bill of Lading, the NMFC, any applicable contract governing the shipment, any applicable tariff governing the shipment, any applicable limitation of liability established by any law of Canada or Mexico or any state or province of Canada or Mexico, or Saia's Rules Tariff Series-170- D herein;
- D. For shipments subject to the Carriage of Goods by Sea Act, \$500 per package or customary freight unit;
- E. \$50,000 per shipment.

2- In all cases released values will be based on a per-item or article basis. Liability limitations based on weight will not be determined based on the weight of the packaging of the entire shipment nor the entire weight of the commodity in question but only on the damaged portion of the cargo. Furthermore, the weight of the packaging and/or shipping container, pallets, skids and the like shall not be included when determining maximum liability.

3- Items described in NMFC and shipped under RELEASED VALUE provisions will be subject to the maximum released value listed in the NMFC depending on the class listed at time of the shipment. When the NMFC offers the Consignor or Consignee the option to declare an actual, declared, or released value on the Bill of Lading and such valuation is NOT declared by the Consignor or Consignee and the shipment is inadvertently accepted by the carrier, charges will be assessed based on the lowest available released value.

4- Failure to describe articles as USED on the original Bill of Lading will not affect the application of this item 108 Section 8-9.

5- FULL VALUE COVERAGE IN THE FORM OF INSURANCE IS OFFERED IN THIS ITEM 108 PER SECTION 8. ANY AND ALL INSURANCE OFFERED HEREIN IS PROVIDED BY THIRD PARTY INSURERS AND NOT BY SAIA. SAIA IS NOT IN THE BUSINESS OF PROVIDING OR SELLING INSURANCE BUT MERELY OBTAINS SUCH INSURANCE FOR THE BENEFIT OF ITS CUSTOMER WHEN REQUESTED BY THE CUSTOMER IN ACCORDANCE WITH THE PROVISIONS OF THIS ITEM 108. ANY AND ALL INSURANCE OFFERED HEREIN IS SUBJECT TO THE MAXIMUMS ESTABLISHED BY SECTION 8 OF THIS ITEM 108. ANY EFFORT TO REQUEST INSURANCE OR DECLARE A VALUE IN EXCESS OF THE MAXIMUMS ALLOWED IN THIS TARIFF IS NULL AND VOID, AND THE ACCEPTANCE FOR CARRIAGE OF ANY SHIPMENT BEARING A REQUEST FOR INSURANCE OR A DECLARED VALUE IN EXCESS OF THE MAXIMUMS ALLOWED DOES NOT CONSTITUTE A WAIVER OF ANY PROVISIONS OF THIS TARIFF AS TO SUCH SHIPMENT. SHIPMENTS THAT ARE INADVERTENTLY ACCEPTED THAT EXCEED THESE LIMITATIONS WILL BE CAPPED AT THE MAXIMUMS ESTABLISHED BY THIS TARIFF AND CHARGES ASSESSED ACCORDINLY.

6- For special rules governing flatbed shipments, see Item 1046.

4. SHRINK WRAPPED PALLETS

A. General

Shipments tendered to Saia on a plastic shrink wrapped pallet/skid, shall be signed for as _____ shrink wrapped skid(s), _____ Shrink wrapped pallet(s), _____ SWP, or _____ SWS, _____ SWP UTC, or _____ SWP STC. When a plastic shrink wrapped skid is delivered to the consignee intact, with the plastic shrink wrap unbroken, Saia shall assume no liability for loss or damage discovered therein, either at delivery or after delivery has been performed. Pallets are only considered to be not intact at time of delivery if there is a written exception indicating the number of pallets and that they were not intact.

Except as otherwise specifically stated, rates, and charges dependent on price per pallet or skid named in tariffs, in contracts and all other supporting correspondence or documentation shall be limited to pallets or skids not exceeding 40"X48"X84". The driver will sign only for the number of pallets, not the number of pieces. A driver's signature that purports to sign for a number of pieces shall be ineffective to establish that Saia actually received that number of pieces.

Pallets that exceed the maximum weight stated in item or contract will be rated as additional pallet. The total weight of the shipment will be divided by the highest maximum weight to determine number of pallets.

Unless otherwise specified within the items or contract, Saia calculates pallet weight as 50 pounds per pallet.

B. Delivery Service Distribution Centers requiring unattended delivery including but not limited to Amazon.Com, Costco, Sam's Club, Target or Wal-Mart Distribution Centers

All shipments to Distribution Centers requiring unattended delivery, including but not limited to Amazon.com, Costco, Sam's Club or Wal-Mart Distribution Centers, or retail locations must be palletized and shrink wrapped for unattended unloading at delivery. Shipments accepted as pieces tendered on pallets and transported on pallets by Saia will be tendered for delivery on pallets with shrink wrap intact. Subsequent shortage claims will not be accepted if shrink wrap was intact and the correct number of pallets was delivered to the Amazon.com, Costco, Sam's Club, or Wal-Mart Distribution Center or retail location. The delivery receipts must have a notation of pallets not intact or freight will be considered intact.

5. UNDELIVERED FREIGHT

Undelivered shipments will be subject to applicable storage or detention storages if no reply is received from attempts to notify the shipper. See **Saia Tariff Item 910** for explanation of applicable storage charges.

6. SHIPPER LOAD OR CONSIGNEE UNLOAD

In lieu of pick up or delivery service and when convenient for Customer and Carrier,

Customer may load/unload Carrier's trailers or vehicles. See **Saia Tariff Item 1039** for conditions unless a separate agreement is already established and signed in place.

7. GENERAL LIMITATIONS OF LIABILITY FOR NEW ITEMS (Subject to Section 3)

Cargo is considered **NEW** only if (a) it is tendered for transportation directly from manufacturing facility, and (b) it remains in its original box, carton, or shipping container, and (c) it has never been removed from the manufacturer's original packaging. Except as provided in Section 8 herein (FULL VALUE COVERAGE) or as otherwise provided herein, Saia's maximum liability for loss, damage, or destruction to all or any part of a shipment of **NEW** articles while in the Carrier's possession within the points in the U.S. shall be limited to \$5.00 per pound per package or \$50,000.00 per shipment, whichever is lower.

8. FULL VALUE COVERAGE (Subject to Section 3)

This section describes options available to customers who desire liability coverage in excess of those limitations described within Item 108. Customers should review this section carefully to understand their options for increased liability coverage.

Saia makes available, through third-party insurers, full value coverage at rates provided herein, which are subject to change. The full value coverage option is protection against "All Risk" of physical loss or damage to the cargo from any external cause only and completely replaces the level of carrier liability otherwise established within Item 108 subject to rules and exceptions indicated herein. To obtain full value coverage, Shipper must properly request full value coverage by following the procedure set forth in this Section 8, and Shipper must declare an "Invoice Value" for the shipment on which full value coverage is requested. "Covered Value" is defined as the sum of the amount of invoice value presented on the request by the Shipper for new or used items, plus freight charges, plus 10% (invoice value + freight charges + 10%) and always subject to limitations and rules set for in this Section 8.

A. Rates: Where full value coverage is properly requested, Carrier will impose, and Shipper or the Payor of freight charges must pay, within terms, the following charges (in addition to all other charges incurred):

(a) A rate of \$0.70 per \$100 of invoice value subject to a \$50.00 MINIMUM CHARGE PER SHIPMENT only for shipments traveling within or between the United States (including Alaska, Hawaii, and Puerto Rico), Canada, and Mexico, provided the cargo moves under a Saia bill of lading indicating a request for full value coverage.

(b) For shipments not covered within subsection (a) above, Shipper should contact Carrier, in advance of shipment, for pricing of full value coverage.

Example 1: If customer requests full value coverage of \$25,000.00 invoice value, the customer must note FULL VALUE COVERAGE AT \$25,000.00 at least one inch in height on the BOL. The Full Value charge will be **\$175.00**.

- **Full Value charge= \$25,000.00 X .7%= \$175.00**

Example 2: If customer requests full value coverage of \$1500.00 invoice value the customer must note FULL VALUE COVERAGE AT \$1500.00 at least one inch in height on the BOL. The Full Value charge will be **\$50.00** minimum charge.

- **Full Value charge = \$1500.00 x.7% = \$10.50 thus minimum of \$50.00**

B. Maximum Coverage: The Full Value coverage is protection against “All Risk” of physical loss or damage to the cargo from any external cause only and completely replaces the level of carrier liability otherwise established within Item 108 subject to the following rules and maximums:

(a.) **New and Used Goods supported by invoice:** The limit of covered value for new or used goods is \$250,000.00 per shipment, \$500,000.00 per one land conveyance, or \$1,000,000.00 in any one place at any one time or in any one disaster or accident unless otherwise agreed to in writing in advance of shipment. Lower limits apply to household goods, personal effects, excluded goods, and shipments to Mexico.

(b.) **Household Goods and Personal Effects:** The limit of covered value for Household Goods and personal effects is \$1000.00 per any one carton, package, box, or crate subject to all the following rules:

- (i) Cargo must be properly packed for transport
- (ii) An itemized inventory must provide a value and contents per carton, package, box or crate.
- (iii) Each carton, package, box, or crate must be numbered and number must correlate to the inventory list.

(c.) **Shipments from the United States to Mexico:** The limit of covered value for shipments from the United States to Mexico, is: \$50,000.00 per shipment or \$300,000.00 per any one land conveyance or in any one place at any one time or in any one disaster or accident unless otherwise agreed to in writing in advance of shipment.

C. Exclusions: The following are not eligible for recovery under full value coverage. Damages arising from:

- (a) Delay, loss of market, damage or deterioration arising from delay, loss of use, loss of business, or any consequential loss whether caused by a peril insured against or otherwise;
- (b) Loss or damage or expense attributable to willful misconduct of the Customer;
- (c) Ordinary leakage, ordinary loss in weight or volume, or ordinary wear and tear of the subject matter insured;

(d) Loss, damage, or expense caused by insufficiency or unsuitability of packing or preparation of the subject matter insured;

(e) Mechanical breakdown, inherent vice or defect, wear and tear, insects, vermin or gradual deterioration;

(f) Neglect of the Customer to use all reasonable means to save and preserve the property at the time of or after any loss or damage;

(g) Restricted Goods. To obtain full value coverage for the following goods, Customer must call SAIA Motor Freight Line, LLC in advance of shipment. Full Value coverage is available for these goods only when agreed to, in writing, in advance of shipment, by an authorized representative of SAIA Motor Freight Line, LLC. See Section 15 herein and Item 75 of this Tariff.

- (i) Household Goods and Personal Effects not meeting the specified guidelines in Section 8. B (b) herein
- (ii) Antiques and/or Fine Art
- (iii) Precious Stones, diamonds
- (iv) Precious metals and bullion (Gold, platinum, silver, and other precious
- (v) Money and currency in any form
- (vi) Accounts, bills, deeds, notes, securities, stock certificates, trading stamps, valuable papers or documents, evidences of debt, letters of credit, tickets, passports, manuscripts, mechanical drawings.
- (vii) Recorded or electronic data and media
- (viii) Contraband or properly in the course of illegal transportation or trade
- (ix) Furs or fur garments
- (x) Cadavers and/or bodily fluid

D. To Purchase Full Value Coverage, Shipper must:

(a) For goods valued at more than \$250,000, request Full Value coverage in writing prior to tendering goods to Carrier, and Carrier must agree in writing to provide such coverage and provide a quote number that must be entered on the Bill of Lading in addition to writing on the Bill of Lading, in clearly visible and legible manner in print or type at least 1 inch in height, "FULL VALUE COVERAGE QUOTE # and \$_____ (invoice value)" **OR**

(b) For goods valued at \$250,000.00 or less, write on the Bill of Lading, in a clearly visible and legible manner in print or type at least 1 inch in height, "FULL VALUE COVERAGE" **AND**

(c) Provide, on the Bill of Lading, the Invoice Value of the goods for which coverage is requested **AND**

(d) Pay, within applicable payment terms, such charges as Carrier imposes for Full Value coverage.

Unless Shipper complies with all requirements, Carrier will not be liable for full value coverage. Please note: Declaring a Value alone on a Bill of Lading, without following the other procedures specified herein, is NOT a substitute for Full Value Coverage.

E. General Rules for Full Value Coverage:

- a) Coverage commences from the time Carrier takes possession of the goods and continues in force during the ordinary and customary course of transit to the final destination. Final destination is the place of business of consignee as per the bill of lading.
- b) Coverage described herein remains in force up to the time of a signed delivery, at which time coverage ceases. Concealed damages must be reported to customer service at Saia Motor Freight Line LLC at 1-800-950-7242 within 15 days of delivery. Moving or transporting the cargo from one location to another by car, truck, rail, or any other means after it has been delivered to consignee voids full value coverage.
- c) Shortages must be reported at delivery or same day as delivery.
- d) All product must be held until claim is finalized and be available for inspection.
- e) Shipper may not request full value coverage after goods are tendered to Carrier.
- f) Full Value coverage replaces all levels of Carrier cargo liability provided under Item 108 in their entirety and replaces contractual provisions governing Carrier's liability.
- g) All claims for cargo loss or damage, including all proper supporting documentation required by 49 CFR Part 370, must be received by Saia within nine (9) months of the date of delivery or, if not delivered, the date delivery should have occurred.
- h) All lawsuits must be filed against Saia no later than two (2) years day from the original written declination.
- i) With respect to Ocean conveyance shipments only, this additional coverage is available only on shipments that are conveyed by Approved Ocean Carriers. Approved Ocean Carriers are defined as operating vessels maintained in class, excluding barges, being regular line iron or steel steamers or motor vessels

operating in regular trade less than 25 years old.

- j) U.S. Economic and Trade Sanctions: Whenever coverage provided by this Policy would be in violation of any U.S. economic or trade sanctions such as, but not limited to, those sanctions administered and enforced by the U.S. Treasury Department's Office of Foreign Assets Control (OFAC), such coverage shall be null and void. Similarly, any coverage relating to or referred to in any certificates or other evidences of insurance or any claim that would be in violation of U.S. economic or trade sanctions as described above shall also be null and void.
- k) Charges for full value coverage will not be voided or refunded under any circumstances, including, but not limited to instances when Carrier refunds or voids freight charges due to service failures.

9. **GENERAL LIMITATIONS OF LIABILITY USED - OTHER THAN NEW (SUBJECT TO SECTION 3)**

For the purposes of limitations of liability, applying to **USED** cargo, the following definition applies:

(a) Cargo is considered NEW only if (i) it is tendered for transportation directly from the manufacturing facility, and (ii) it remains in its original box, carton, or shipping container, and (iii) has never been removed from the manufacturer's original packaging. All cargo not considered **NEW** under this definition is considered **USED**, even if it has not actually been used for the intended purposes; OR

(b) If cargo has been reconditioned, refurbished, rebuilt, remanufactured, or it is considered **USED** for the purpose of the applicable rates and liability limits, even if such is shipped in its original packaging or similar to its original packaging; OR.

(c) **USED** cargo includes all commodities other than new, including but not limited to internet auctions, interplant moves, articles of household goods, personal effects, antiques, and display or demonstration models, whether listed as such on the Bill of Lading or not. These articles will only be accepted for transportation as **USED** cargo.

Except as provided in Section 8 of this item (FULL VALUE COVERAGE) or as otherwise provided herein, Saia's liability for loss, damage, or destruction to all or any part of a shipment of **USED** articles while in the Carrier's possession within points in the U.S. shall be limited to 10 cents (10¢) per pound per package or \$10,000.00 per shipment, whichever is lower.

11. **[RESERVED]**

12. LIABILITY FOR SHIPMENTS OUTSIDE THE U.S. (Subject to Section 3)

For shipments requiring Customs clearance, the Shipper, Consignee, Third Party, Broker and/or Agent is responsible for complying with all applicable domestic and international treaties, laws, government regulations, orders or requirements including but not limited to customs and import laws and regulations of any country to, from, through or over which the shipment may be carried and agrees to furnish such information and complete such documents as are necessary to comply with such treaties, laws, regulations, orders or requirements. Under no circumstances will the Carrier be liable for failure to comply with such provisions.

LIABILITY - MEXICO

For shipments moving from or to points in Mexico, Saia advises its customer that it will transport shipments destined to Mexico to the border most convenient to Saia, or to the closest border place to destination, and will interchange the shipment to a Mexican carrier for delivery in Mexico. Saia shall accept bills of lading showing a destination in Mexico as being amended to show destination of the Mexican border interchange point. Saia, as a motor carrier, provides no actual service in Mexico. Therefore, should the shipper tender a shipment on a bill of lading with a Mexican destination, Saia will act solely as a shipper's agent in arranging interchange with a Mexican carrier at the border to deliver the shipment under the Mexican carrier's bill of lading to its ultimate destination. The shipper **MUST** look solely to the Mexican carrier should loss, damage, or delay occur in Mexico or in possession of the designated Brokers, Freight Forwarders, or Mexican carrier. Except as provided in Section 8 of this item (FULL VALUE COVERAGE), Saia's liability for loss, damage, or destruction to all or any part of a shipment that has been **SHIPPED TO/FROM MEXICO** shall be the lesser of the following:

- a) If loss or damage occurs to a shipment while within the Border of Mexico, or at Border Gateway of Mexico, liability shall be limited to 10 cents per pound per package, the applicable limitation of liability provided by Mexican law, or \$500.00 per shipment; whichever is lowest.
- b) If loss or damage occurs to a shipment within the Border of the U.S. and not a Border Gateway of Mexico, the Carrier's U.S. domestic liability limitations will apply. Carrier's maximum liability will not exceed the lesser of the actual value supported by a certified copy of the original invoice, not to exceed the limitations and exclusions as detailed in Item 108 herein.
- c) In the event the point of loss or damage cannot be determined, the liability shall be limited to 10 cents per pound per package or \$500.00 per shipment, whichever is lower.
- d) Saia will not be liable for any obligation or liability arising from:
 - i. Accidents or Acts of God, or from any other reasonable cause that is beyond Saia's control;
 - ii. Governmental actions;
 - iii. Erasures or scratches caused by electric or magnetic damage or from any other damage to electronic, photographic or any other kind of images;

- iv. Incomplete or inaccurate information stated in the Service order'
- v. Any of the following: theft, with or without violence, assault, attacks, disruption of public peace, kidnapping, fire, earthquake, revision of the merchandise at fiscal inspection stations or customs offices run by different administrative authorities and in general disaster or action, with or without violence which may happen to Saia and the Carrier and by which the conservation, keeping and/or delivery of the merchandise, the total or partial, is prevented, in conditions different to the conditions when it was received.

A. If properly described:

Except for shipments moving to or from Mexico, and if properly described

on the Bill of Lading, Carrier's liability for shipments containing PROHIBITED OR RESTRICTED ARTICLES inadvertently accepted by Carrier shall be limited to the least of the actual value supported by a certified copy of the original invoice, any released value made applicable by the NMF 100 series or Saia Tariff 170-D, or \$50,000 per shipment.

B. If **NOT** properly described:

Except for shipments moving to or from Mexico, and if NOT properly described on the Bill of Lading, Carrier's liability for shipments containing PROHIBITED OR RESTRICTED ARTICLES inadvertently accepted by Carrier shall be limited to the least of the actual value supported by a certified copy of the original invoice, 10 cents (\$.10) per pound per package, \$500.00 per shipment, or any released value applicable by the NMF 100 series or Saia Tariff 170-D herein.

C. For FULL VALUE COVERAGE options for Prohibited Articles, Customer must call Saia Motor Freight Line, LLC in advance of shipment. FULL VALUE COVERAGE is available only when agreed to, in writing, in advance of shipment, by an authorized representative of Saia Motor Freight Line, LLC. See Item 75 and 108 Section 8 C. (g).

D. Miscellaneous:

1. Monetary coins will not be accepted as premiums with other articles except as authorized in NMF 100, Item 310.

3. U.S. Internal Revenue Distilled Spirit Stamps will be accepted in truckload or volume shipments only.
4. Numismatic exhibits subject to NMF 100, Item 63830 may be accepted for transport.

16. FREIGHT LIABLE TO DAMAGE OTHER FREIGHT OR EQUIPMENT

Carriers are not obligated to receive and transport freight liable to impregnate or otherwise damage other freight or Carrier's equipment. Such freight may be accepted and signed for "subject to delay for suitable equipment" or may, for lack of suitable equipment, be refused.

Any commodity that causes damage to other freight will result in liability to the shipper for damage caused to Carrier's equipment or to other freight.

17. TERMS CHANGE AFTER OS&D DELIVERY

Saia reserves the right to deny a change of terms to a freight bill after an OS&D delivery exception has occurred. If the request is inadvertently accepted after the exception, Saia reserves the right to revert to the original terms of the shipment.

18. PACKAGING REQUIREMENTS

Where packaging requirements are not otherwise provided by tariff or contract, the packaging requirements of NMFC will apply. Where packaging requirements are provided

in this tariff, rates provided therewith will apply only when the article or articles are packaged in accordance with such packaging requirements, except that rates subject to such packaging requirements will apply also when the article or articles so packaged as required are placed on pallets.

It is the responsibility of the shipper/consignor to ensure that proper packaging is used and that contents of packages are adequately and securely packaged, wrapped, and cushioned for transportation. Carrier is not liable when loss, damage, or destruction is caused by insufficient or improper packaging, securing, marking, or labeling of the goods.

19. ACCEPTANCE OF GOODS

The consignee must accept delivery of the goods upon delivery unless they are determined to be totally worthless.

20. SALVAGE OF UNDELIVERED OR REFUSED FREIGHT

- (A) Whenever property transported by Carrier is damaged or alleged to be damaged and is, as a consequence thereof, not delivered or is rejected or refused upon tender thereof to the owner, consignee, or person entitled to receive such property, Carrier, after giving due notice wherever practicable to do so to the owner and other parties that may have an interest therein, and unless advised to the contrary after giving such notice, shall undertake to sell or dispose of such property directly or by the employment of competent salvage agent. Carrier shall dispose of the property only in a manner that will fairly and equally protect the best interests of all persons having an interest thereon. Carrier shall make an itemized record sufficient to identify the property involved so as to be able to correlate it to the shipment or transportation involved, and claim, if any, filed thereon. Carrier shall also assign to each lot of such property a successive lot number and note that lot number on its record of shipment and claim, if any claim is filled thereon.
- (B) Upon receipt of a shipment on which salvage has been processed in the manner prescribed, Carrier shall record on its claim file thereon the lot number assigned, the amount of money recovered, if any, from the disposition of such property, and the date of transmittal of such money to the person or persons lawfully entitled to receive the same.
- (C) To the extent that the Shipper asserts that the goods should be destroyed for any reason, Carrier remains entitled to the salvage value the goods would have generated had the goods been salvaged instead of destroyed.

21. FOOD ITEMS

For food, food-related items, medical supplies, drugs, and toiletries, Carrier shall not be liable unless actual damage to the freight itself (and not damage only to the packaging or potential or suspected damage to the freight) is proven.

If shipper transports items covered under any food, drug or cosmetics legislation, law, statute, code and or regulation which requires rejection or destruction of the entire shipment because the items "are or may be contaminated" under the definition of the legislation, shipper must

clearly indicate on the bill of lading that carton and/or packaging damage may contaminate product.

Full value coverage above the maximum carrier liability limits shown in this item are available in accordance with provisions of Section 8 of this item.

If the consignor has given the carrier notice on the bill of lading as required above, carrier's liability for loss, damage, or destruction to any shipment or part thereof is limited in accordance with the terms of this Item 108.

In the event that shipper requires that any freight subject to this section be destroyed without a showing of actual damage, Carrier will be entitled to a salvage offset for the actual value of the freight when tendered for delivery by Carrier.

22. UNATTENDED DELIVERY

When shipper, broker, or consignee requests that freight be delivered at an unattended location or be delivered without signature by the consignee, Carrier is not liable for loss, damage, theft, or destruction that occurs after Carrier delivers freight, and Carrier's delivery receipt signed by driver will constitute evidence of delivery in good condition.

23. RETURNED GOODS

Liability for loss, damage or destruction of property being returned to the original shipper, which was not initially transported by Saia from the original shipper, will be limited to lost freight only and Saia will not be responsible for damages.

Liability for loss, damage or destruction of property being returned to the original shipper, which was initially transported by Saia from the original shipper and delivered without exception, when Saia is not given an opportunity to inspect prior to return, will be limited to lost freight only and Saia will not be responsible for damages.

24. ALASKA, HAWAII, AND PUERTO RICO (Subject to Section 3 Notes)

For shipments moving between the 48 contiguous United States and Alaska, Hawaii, or Puerto Rico, or between Alaska, Hawaii, or Puerto Rico, the Shipper authorizes Carrier to arrange for transportation of goods via ocean carrier and, on behalf of and as agent of Shipper, to enter into contracts with an ocean carrier to accomplish said transportation. For any cargo loss, damage, or destruction occurring while the goods are in possession of the ocean carrier, the liability of the ocean carrier and of Saia shall be limited to the lesser of (a) the limited liability amount specified in the contract with the ocean carrier or the ocean or combined transport waybill or (b) the lowest applicable limitation provided by Item 108, Section 3-1D of the Saia Series 170D Rules Tariff. For Full Value Coverage, see Section 8.

ITEM 110 RELEASED VALUE COMMODITIES

Where NMF 100 provides for a released value on the commodity shipped, the following will apply:

- 1) The released value, which shall be deemed to relate to each article separately and not to the shipment as a whole, must be entered on the shipping order and bill of lading in the following form:

“The agreed or declared value of each article in this shipment is hereby specifically stated by the shipper to be not exceeding _____ per pound.”
- 2) If shipper fails to execute the above statement or designates a value exceeding the maximum released value allowed as provided in the applicable item of NMF 100, the shipment will not be accepted, but if shipment is inadvertently accepted, it will be considered as being released at the lowest valuation provided and shipment will move and be charged for, on the basis of such limitation of liability.
- 3) On any shipment that includes a commodity subject to a released value:
 - a. Class rate minimum charges without discounts apply on minimum charge shipments unless the shipper releases the shipment to the lowest valuation in NMF 100 for the commodity(s) shipped.
 - b. Reduced minimum charges and FAK (single factor rates) will only apply when released to the lowest valuation in NMFC 100 for the commodity(s) shipped.
- 4) Miscellaneous:
 - a. Class Rates and all tariff provisions pertaining to class rate applications on shipments released to a specific or maximum value shall be the current class rates and charges in effect at time of shipment.
 - b. Any disclaimer in tariffs which provides non-application of class rate applications on shipments released to specific or maximum value shall not apply.
 - c. The term “class rate applications” describes all tariff provisions required for the application of class rate charges including Class Rate Tables; Class Ratings; Rate basis Numbers of distance factors of all kinds; allowances, discounts, rate adjustments or column commodity rates expressed as a percentage of class rates or class rate charges; general increases, arbitraries and minimum charges applicable thereto: to the extent that the carrier for whose account this tariff is filed is party to such tariff provisions.

ITEM 111 MINIMUM CHARGE FOR CUBIC CAPACITY AND DENSITY ELIGIBLE SHIPMENTS

Any shipment which is 750 cubic feet or greater and has a density of less than six pounds per cubic foot is subject to a minimum charge as defined herein.

1. RATES AND CHARGES

- a. Eligible shipments will be subject to a minimum charge to be determined as follows:

- i. Carrier will multiply the total cubic feet by 6 pounds to get the calculated weight of the shipment.
- ii. Carrier will multiply the calculated weight by the class 100 class rate as published in the current Saia 5700 series tariff in effect at time of shipment.
- iii. Carrier will apply the customer's published discount percentage.

2. CONDITIONS

- a. Density is based on the total cubic feet of all articles or pieces in the shipment. Density is determined as follows:
 - i. The cube of loose articles, pieces or packaged articles of a rectangular, elliptical, or square shape on one plane shall be determined by depth in inches, including all projections, and dividing the total by 1,728 cubic inches (one cubic foot), the density shall be the result of the weight of the article, piece or package by the ascertained cubic feet.
 - ii. To determine the density of a cylindrical shaped article or any article other than a square, elliptical or rectangular shaped article in a single plane, square the greatest dimension on the cylindrical or other than square, elliptical or rectangular plane (multiply the dimension by itself) and multiply that result by height or length. If result is in cubic inches, divide by 1,728 cubic inches (one cubic foot). The density shall be the result of the division of the weight of the article by the ascertained cubic feet.
- b. Freight bill information: When this item applies, the Carrier's freight bill will indicate both the actual weight and the calculated weight upon which the charges are assessed.
- c. Maximum Charge: The charges applied under this item shall in no case exceed those charges that would be calculated from Item 390 of this Tariff.
- d. The provisions of this item are not applicable in connection with shipments subject to:
 - i. Truckload rates or charges
 - ii. Rates which apply per vehicle used.
 - iii. Capacity load provisions
 - iv. Exclusive use of vehicle provisions
- e. If Carrier is unable to load freight on top of the packaged articles/handling units due to the nature of the packaged articles/handling units or per instructions from the shipper/consignee, a minimum height measurement of 96 inches will be used when determining the cubic footage of the packaged articles/handling units.

5. The term "DENSITY": Where rates are applicable according to the density of articles as tendered for shipments, the word "density" means "pounds per cubic foot". The cube of loose articles or pieces, or packaged articles, shall be determined as set forth in Item 111.
6. Where the terms "LTL", "AQ" or "Less-Than-Truckload" or "Any Quantity" are used, such terms refer only to an amount of freight subject to rates applying on less than 20,000 pounds.

9. The term "PAYOR" or "PAYOR OF FREIGHT CHARGES" refers to the party contracting (pursuant to a contract, to this Tariff, to published pricing, to a quote, or to a bill of lading) with Carrier for transportation of freight. Subject to provisions of this Tariff, the PAYOR or PAYOR OF FREIGHT CHARGES will be responsible for payment of all freight and other charges owed to Carrier.

ITEM 121 DRAYAGE SERVICE

When, through no fault of Carrier, pick up or delivery is made with equipment other than Carrier's normal linehaul pup/set or vehicle, and the Carrier must transfer the lading prior to movement, a charge of \$45.00 per shipment will be assessed. The payor of the freight charges shall be responsible for the charges accrued under this item.

ITEM 161 PALLET RATES – APPLICATION

1. Shipments tendered to Saia should be shipped on pallets for the pallet rates to apply.
2. The driver will sign only for the number of pallets, not the number of pieces.
3. Shipper must load and Consignee must unload the pallets.
4. Pallet may not exceed 40x 48 inches in size and/ or 84 inches in height.
5. Rates and charges are dependent on price per pallet named in Tariffs (Item) or Contracts. All supporting correspondence and documentation shall be limited to pallets or skids.
6. Pallets that exceed the maximum weight stated in a Tariff (Item) or Contract will be rated as an additional pallet. The total weight of the shipment will be divided by the highest maximum weight to determine the number of pallets.
7. Unless otherwise specified within the Tariff (Item) or contract, Saia calculates the pallet weight as 50 pounds per pallet.
8. Any accessorial services required are not included in the “Pallet Rates” named herein.
9. If the above guidelines are not adhered to, Saia reserves to rates the shipment as an LTL shipment.
10. If customer is awarded pallet rates to terminal zones and states, the terminal zones will take precedence over states.
11. See Item 108 for liability and limitations of liability applicable to shipments priced at pallet rates.

ITEM 171 FAK AND BUMP RULE

If the bill of lading requests the application of the “Bump Rule” (Item 171, NMFC 100 Series), any class exceptions or FAK provisions will be forfeited.

ITEM 345 ARRIVAL NOTICE AND UNDELIVERED FREIGHT **ARRIVAL NOTICE**

Actual tender of delivery at consignee’s place constitutes the notice of the arrival of a shipment. If the shipment is not actually tendered for delivery, notice of arrival will be given to the consignee and/or consignor not later than the next business day following the arrival of the shipment. The notice will be given by telephone, if convenient and practicable; otherwise by mail, email, fax, or

ITEM 360 BILLS OF LADING/CORRECTED BILLS OF LADING

1. A charge of \$32.00 in addition to all other applicable charges will be assessed against the payor of the freight charges for processing corrected bills of lading. Any change in the collection status will not be permitted after payment has been received.
2. Any correction to a bill of lading or any request to change the terms of the bill of lading or the status of the payor from prepaid to collect must be submitted to the Carrier in writing.
3. Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after a shipment has been delivered.
4. Carrier reserves the right to deny a change of terms to a freight bill after an OS&D delivery exception has occurred. If the request is inadvertently accepted after the declination, Carrier reserves the right to revert to the original terms of the shipment.
5. A corrected bill of lading to change the original freight charges collection status from prepaid to collect will not be accepted if Section 7 (the non-recourse clause) of the corrected bill of lading has been signed. If the corrected bill of lading is inadvertently accepted and Section 7 has been signed, the signature will be considered invalid. The party requesting a change in the collection status remains liable and will guarantee payment of the freight charges should the new payor fail to pay within the prescribed credit guidelines.
6. A request to change the original freight charges collection status from collect to prepaid will require a corrected bill of lading from the shipper or consignor and the shipper or consignor must have established credit with SAIA. A request to change the collection status may be submitted by the shipper or consignor on the shipper's or consignor's letterhead in lieu of a corrected bill of lading, subject to all other provisions of this Item.
7. When the Carrier is instructed, after the shipment has been picked up, to bill the freight charges to a third party and such information is not shown on the bill of lading at the time of shipment.
8. Redelivery, storage or other charges that become applicable on shipments that have been refused due to the freight charges collection status of the payor will be assessed against the payor of freight charges on the corrected bill of lading.
9. Corrected bills of lading changing the description, density or weight of commodities in a shipment will not be accepted by the Carrier without submission of conclusive documentary proof that the description, density or weight is as claimed on the corrected bill of lading. The Carrier reserves the right to refuse corrections where the validity of the corrected information has not been verified to the satisfaction of the Carrier, or where execution of the correction request would violate laws, rules or regulations. Any decision on whether to accept corrections to bills of lading under this paragraph shall be within Carrier's sole discretion.
10. An additional \$15.00 charge will be assessed whenever a shipper or consignor neglects to include a valid quote number on the original bill of lading and a change is required to add the quote number and rate at a later date.
11. Carrier reserves the right to deny correction requests to add/remove a volume/spot quote to a freight bill after the freight has been delivered. If the request is inadvertently accepted after the declination, Carrier reserves the right to revert to the original rating of the shipment.

ITEM 360-10 BILLS OF LADING, FREIGHT BILLS AND STATEMENTS OF CHARGES (Exception to Section 1 (f) of NMFC Item 360)

1. When a party requests that proof of delivery be furnished in any form, a charge of \$2.84 for each such document or copy will be imposed.
2. The charges set forth in this item will not apply to:
 - (a) Bank Payment plans when documentation is limited to 1) deposit ticket(s) supplied by the bank; 2) supporting freight bills not in excess of the number set forth in Section 1 (e) of NMFC Item 360; or 3) the return of a copy of the bill of lading furnished by shipper.

ITEM 360-20 BILLS OF LADING, STRAIGHT – CONTRACT TERMS AND CONDITIONS

Unless otherwise agreed to in writing in advance of carriage by an authorized official (see Item 75), contract terms shall be those contained in the current form of Carrier's bill of lading published on Carrier's website and in the National Motor Freight Classification 100 Item 365 "Uniform bill of lading" in effect on the date shipment was tendered to the carrier. Only carrier officials or personnel authorized to do so by the Carrier (see Item 75) are empowered to agree to alternate contract terms and conditions and the use of an alternate bill of lading referencing such terms and conditions. Drivers employed or hired by the carrier are among those excluded from the category of authorized carrier personnel. Where an unauthorized bill of lading issued by the shipper or consignor is signed for by the Carrier's driver or other unauthorized person(s), that signature acknowledges only receipt of the freight and identifies the intent to deliver. It is not a contract for the carriage of freight. Continued use of an unauthorized bill of lading by the shipper will not constitute an implied acceptance by the carrier.

Reference made in bills of lading to tariffs, classifications, rules, or tariffs on file means the Rules Tariff. The Rules Tariff is published on Carrier's website and available to Carrier's customers on request.

ITEM 360-50 BILLS OF LADING – ORDER NOTIFY SHIPMENTS

Unless otherwise provided, Order Notify Shipments will be accepted, subject to a charge of \$23.30 per shipment, which charge will be in addition to all other lawful transportation charges.

ITEM 360-60 BILLS OF LADING – LIABILITY AND PENALTIES

Carrier will not be responsible for any liability provided on Bills of Lading except in accordance with items 108, 109, 110 and 360-20 of this tariff. Carrier will not be responsible for any penalties, consequential damages, incidental damages, late fees, or any other similar charges regardless, even if shown on a shipper's or consignor's bill of lading. Carrier's drivers' signature does not indicate acceptance of any of the aforementioned terms.

ITEM 360-70 BILLS OF LADING – COMBINED SHIPMENT RULE

When Carrier is tendered more than one shipment, on the same day, moving to the same consignee, Carrier reserves the right to combine shipments as if they were in fact one shipment.

ITEM 370 BLIND SHIPMENTS

A blind shipment is when a third party controls the movement of the freight but does not want the shipper or consignee to know the name of the other. The following conditions will apply to blind shipments when via Saia:

1. Two bills of lading are required and both must be prepaid. Conditions outlined here must be satisfied prior to the shipment being tendered for transportation. If the Letter of Authority is not received by Carrier prior to pick up, the request will be handled as "Reconsignment or Diversion" as provided in Item 820 of this Tariff.
 - a. The original bill of lading from the shipper must show the actual shipper name, address, city, state and zip code consigned to Carrier's terminal serving the shipper.
 - b. The corrected bill of lading will identify Carrier as the shipper with the shipper's city, state and zip code and the actual consignee name and address. The corrected bill of lading must reflect a Third Party; which must have established credit with Carrier. A letter of authority requesting the change must be sent to Carrier.
 - c. The invoice is generated from the corrected bill of lading.
 - d. Section 7 of the bill of lading cannot be signed or, if signed, will be inoperative.
 - e. The freight bill will reference the corrected bill of lading information and the original bill of lading freight bill number.
 - f. Carrier will not ensure the confidentiality of the transaction.
2. The charge for this service will be \$132.50 in conjunction with all other applicable charges.
3. Carrier must be satisfied that the requestor has the legal authority to divert the shipment.
4. Charges for "Marking or Tagging" as published in Item 580 of Tariff will not apply.
5. Carrier will make a diligent effort to execute a request for Blind Shipment, but will not be responsible if such service is not affected

ITEM 382 CANCELLATION OF TARIFF ITEMS

When individual items of this Tariff are amended or cancelled, the effective date of each such amendment or cancellation will be noted. Amendments and cancellations will be effective for shipments tendered to Carrier after the effective date.

ITEM 390 MINIMUM CHARGE (NOTES A AND B) AND CAPACITY LOADS (NOTES C AND D)

ITEM 435 - COLLECTION OF FREIGHT CHARGES

Section A - General

1. All rates and charges are subject to the payment rules and regulations provided in 49 CFR Part 377 as amended and in effect at the time of shipment.
2. All lawfully applicable freight charges are due and payable at time of shipment for PREPAID shipments, and at time of delivery for COLLECT shipments. Upon request and receipt of information sufficient to assure payment of freight charges at a later date, and at Carrier's discretion, credit may be extended for a period of thirty (30) calendar days, beginning on the day following the date of mailing of the Freight Bill by the carrier, including Saturdays, Sundays, and holidays.
3. A prepaid shipment is one on which the charges for transportation service rendered at the request of the consignor, including charges for any accessorial services performed at the request of the consignor, are to be paid by the shipper.
4. A collect shipment is one which the charges for transportation service, including accessorial services rendered at the request of the consignee, or requested by the consignor for the consignee, are to be paid by the consignee.
5. If, in the judgment of Carrier, the forced sale of the goods would not realize the total charges due at destination, the shipment must be prepaid.
6. If a shipment is required by this Tariff to be prepaid, it will be accepted on a collect basis only if the consignor or shipper has established credit with Carrier and the consignor or shipper guarantees to pay the charges if the consignee fails to do so within the time allowed under the provisions of Item 435 of this Tariff. Such a shipment will not be accepted if the consignor executes Section 7 of the Bill of Lading.
7. The consignor and shipper remain liable for transportation charges when there are incomplete or conflicting terms or information on the bill of lading.
8. No shipment will be accepted when the line haul transportation charge is partially prepaid or partially collect.

Section B – Service Charges

1. This section establishes a service charge for payments made after the expiration of an authorized credit period, as permitted by 49 C.F.R. 377.203(e)(3). Carrier hereby informs shipper that:
 - a. The only purpose of this rule is to prevent a shipper who does not pay on time from having free use of funds due the Carrier;
 - b. Carrier does not sanction payment delays; and
 - c. Failure to pay within the authorized credit period will, despite this provision for a service charge, continue to require the carrier, before extending credit, to determine in good faith whether the shipper will comply with credit regulations in the future.
2. Failure to make payment of freight charges to the carrier for service performed within sixty (60) calendar days of presentation of the Freight Bill will result in the following late payment service charges:

Age of Unpaid Invoice	Late Payment Service Charge (% of principal)	Minimum Service Charge
61-90 days	25%	\$125.00
Over 90 days	50%	\$250.00

Section C – Collection Expense Charge

This section assesses liquidated damages for all costs incurred in the collection of overdue freight charges, pursuant to 49 C.F.R. 377.203(g)(1)(ii). Where Payor of Freight Charges fails to make payment during the authorized credit period of fifteen (15) days net, thirty (30) days courtesy, all discounts are revoked, and Payor is required to make payment at the applicable full, nondiscounted rate. The difference between the discount and the full rate constitutes Carrier's liquidated damages for its collection effort. This provision applies automatically at the expiration of the authorized credit period, without the need for Carrier to reinvoice Payor for the full, undiscounted rates. The failure of Carrier to reinvoice Payor for the full, undiscounted rates does not waive Carrier's right to collect such rates.

Section D - Returned Checks

When a check is issued for payment of a carrier's freight bill, or to cover charges for any other lawfully applicable service performed by the Carrier, and the check is returned unpaid due to insufficient funds, or stop payment, or any other reason, an additional service charge of \$40.00 per check or the maximum amount allowed by applicable law will be assessed.

Section E – Bank fees

Any charges assessed against Carrier for International bank fees will be payable by the Payor of Freight Charges.

Section F - Third Party Billing

1. When a party other than the consignor or consignee on the bill of lading and shipping order is responsible for paying the freight charges, the name and address of such third party must be placed on the bill of lading and shipping order by the consignor at the time of shipment, except as provided in Paragraph 3.
2. When consignor or shipper requests Carrier to bill a third party, the shipment will be considered prepaid and payment of charges guaranteed by the consignor or shipper. If the third party fails to pay such charges within the specified credit period, the consignor or shipper will be responsible for payment.
3. Shipments subject to the provisions of this section will not be accepted if the consignor executes Section 7 of the Bill of Lading. If the shipment is inadvertently accepted, the signing of Section 7 will NOT be applicable and the consignor or shipper will remain liable for all freight charges.

4. A third party payor must have an address in the US, Canada, Mexico, or Puerto Rico. Others will not be accepted.
5. If a customer receives an invoice billing them as the 3rd party payor and it is not responsible for payment of the freight bill, the customer has 120 days to notify Carrier to remove them as the 3rd Party payor. After 120 days, the third party must provide a letter of authorization from another party accepting liability. This is subject to Item 360 rules and fees. This will not be applicable on paid freight bills. Any paid freight bills will not be reopened.

Section G – Third Party Payments

All payments for freight charges made by the shipper or consignee to a freight forwarder, broker, or any other party shall not be deemed as payment received by Carrier unless otherwise agreed in writing by an authorized Carrier official (see Item 75). A shipment on which charges are to be paid by a party other than the consignor or consignee will be accepted provided that the consignor or shipper has established credit with Carrier and guarantees to pay the charges if the third party fails to do so within the time allowed under the provisions of Item 435 of this Tariff. Such a shipment will not be accepted if the consignor executes Section 7 of the Bill of Lading or, if inadvertently accepted, the execution of Section 7 will not be effective. In all circumstances, the consignor or shipper remains liable for payment of freight charges.

Section H – Prohibition of Offsets

Shipper, Consignor and/or Consignee, or its broker or agent, shall pay all freight charges when due without offset for any cause, including but not limited to, cargo claims and overcharge claims. All claims for loss or damage shall be governed by Item 108 of this Tariff, and shipper, consignor, or consignee shall not deprive Carrier of the claims process by unilateral deduction of claims from payment of freight charges due.

Section I—Carrier Lien

Carrier has a lien on freight in its actual or constructive possession for the total amount of current and past due freight charges owed to Carrier by Payor. This lien includes freight charges, accessorial, or any other charges incurred on freight previously delivered by Carrier. To enforce its lien, Carrier may convert any shipment in its possession to on-hand freight. On-hand freight may be placed in public or private storage by Carrier. Once freight is placed on-hand, the provisions of Item 910 apply.

Section J—Jurisdiction and Venue

All actions or proceedings instituted by Carrier for the collection of freight charges owed by the shipper, consignor, consignee or third party involved in the movement who has failed to pay such

charges within 30 days of presentation of the freight bill shall be brought in a state or federal court of competent jurisdiction in Forsyth County, Georgia, Terrebonne Parish, Louisiana, or where the debtor resides (at the option of Carrier). The parties consent to jurisdiction and venue in such locations and will not raise, and hereby waive, any defenses based on the venue, personal jurisdiction, inconvenience of forum, or sufficiency of service of process related to the place of bringing of the action.

Section K—Delinquent Accounts

An account is considered delinquent when a customer has not paid freight charges within sixty (60) days, when the account is placed on a no-charge status, or is otherwise delinquent. Carrier reserves the right to apply all amounts owed by Carrier to customer to the customer's delinquent accounts receivable balance. Amounts owed by Carrier include amounts for approved freight claims, overcharges, credits, etc. Carrier reserves the right to apply all amounts owed by Carrier to customer to the delinquent accounts receivable account before forwarding the payment to the customer.

Section L—Intermediaries and Interline Carriers

When arrangements are made with intermediaries or interline carriers for transportation services provided by Carrier and the intermediary or interline carrier in turn bills the shipper or beneficial owner of the goods for freight charges inclusive of Carrier's rates, the following rules shall apply:

1. The intermediary or interline carrier will segregate money due and owing to Carrier from other accounts.
2. Intermediary or interline carrier will pay Carrier without offset from funds received and shall not commingle, pledge, encumber or hypothecate funds received by it intended for payment of freight charges to Carrier.
3. When the arranger of transportation is a carrier or freight forwarder, a constructive interline trust shall apply.
4. When the arranger of transportation is a property broker, the regulations set forth at 49 C.F.R §379 shall apply and monies received by the broker shall be segregated from its other assets and liabilities.
5. In no event shall accounts receivable pledged or encumbered by any intermediary or interline carrier be inclusive of freight charges billed by it to the extent those freight charges are due and owing to Carrier.
6. Carrier preserves recourse for payment of all freight charges to the consignor, unless Section 7 of the bill of lading is signed, and to the consignee unless prior notice is given that the consignee is not to be responsible for freight charges in accordance with to Section 7 of the bill of lading.

- d. When consignor assigns to two or more carriers designated spaces in its shipping room or loading platform where outgoing freight will be placed by the consignor for pick-up by the designated carrier and all of such assigned spaces are as close as practicable to a parking space suitable for carrier to place its vehicle for loading, all such assigned and designated spaces will be considered immediately adjacent to such parking spaces.

 When consignor or owner has made written arrangements with the Carrier, freight consigned to construction sites or other places where no representative of the consignee is present or available to receipt for the shipment will be delivered by the Carrier and left unattended at the place designated. The Carrier will unload the shipment providing the otherwise applicable Tariff rules or rates do not specifically require the consignee to so perform such service. Upon delivery to an unattended location, tender to the consignee is complete, and Carrier will not be liable for damage, theft, destruction, or other loss of freight that occurs after delivery.

Freight will be deemed on-hand with or without notice. When freight is "on-hand," the legal liability of Carrier is altered from that of a motor carrier to that of a warehouseman pursuant to the Uniform Commercial Code. B. REFUSED OR IMPRACTICAL DELIVERY

If the consignee refuses the shipment tendered for delivery by Carrier or if Carrier is unable to deliver the shipment because of fault or mistake of the consignor or consignee, the Carrier's liability shall then become that of a warehouseman. Carrier shall promptly attempt to provide notice, by telephonic or electronic communication as provided on the face of the bill of lading, if so indicated, to the shipper or the party, if any, designated to receive notice on this bill of lading. Storage charges, based on Carrier's Tariff, shall start no sooner than the next business day following the attempted notification. Storage may be, at the Carrier's option, in any location that provides reasonable protection against loss or damage. The Carrier may place the shipment in public storage at the owner's expense and without liability to the carrier.

If the Carrier does not receive disposition instructions within 48 hours of the time of Carrier's attempted first notification, Carrier will attempt to issue a second and final confirmed notification. Such notice shall advise that if Carrier does not receive disposition instructions within 10 days of the notification, Carrier may offer the shipment for sale at a public or private sale and the Carrier has the right to offer the shipment for sale. The amount of sale will be applied to the Carrier's invoice for transportation, storage and other lawful charges. The owner will be responsible for the balance of charges not covered by the sale of the goods. If there is a balance remaining after all

charges and expenses are paid, such balance will be paid to the owner of the property sold hereunder, upon claim and proof of ownership.

Where Carrier has attempted to follow the procedure set forth hereinabove and the procedure provided in this section is not possible, nothing in this section shall be construed to abridge the right of the Carrier at its option to sell the property under such circumstances and in such manner as may be authorized by law. When perishable goods cannot be delivered and disposition is not given within a reasonable time, the Carrier may dispose of property to the best advantage.

Where the Carrier is directed by consignee or consignor to unload or deliver property at a particular location where consignor, consignee, or the agent of either, is not regularly located, delivery shall occur when the property is unloaded and Carrier is not liable for any damage, theft, or loss of the freight after delivery.

ITEM 996 CONSTANT SURVEILLANCE SERVICE

Constant Surveillance Service (CS) will be provided by the Carrier upon request of the shipper, subject to the following:

1) Definition and Requirements

CS is a service that provides the following:

- a) Continuous responsibility for constant surveillance and custody of shipments in transit. Such attendance and surveillance shall prevent, as reasonably possible, all inspections (except those performed by governmental enforcement agencies in their line of duty), tampering, pilfering or sabotage, including, insofar as humanly possible, all manner of unusual circumstances, such as wreck, delay, flood or violent disturbances.
- b) For the purposes of CS, unless otherwise stated herein, when not being driven, a vehicle must be attended at all times by a qualified representative of the Carrier. A vehicle is "attended" when the person responsible for the shipment is (i) in the vehicle, awake, not in a sleeper berth or (ii) is within 100 feet of the vehicle and has the vehicle within his constant, unobstructed view. A qualified representative

is a person employed by or under contract to the Carrier or the terminal involved in handling of shipments, who is designated by the Carrier terminal to attend the conveyance, who is aware of the sensitivity of material moving under CS, who is knowledgeable of the safety, security and emergency procedures that must be followed, and who is authorized and has the means and capability to move the transportation conveyance.

- c) For brief stops on route, ensure that the vehicle or shipment is attended.
- d) When circumstances require lengthy stops on route, Carriers will ensure that the vehicle is parked only at a Carrier terminal, a state or local approved safe haven under applicable federal regulations. When a vehicle is parked in a Carrier terminal, a representative must keep the shipment in full view and stay within 100 feet of the vehicle or shipment at all times, or the shipment must be secured in a chain link fence where it is continuously patrolled by a representative of the Carrier or terminal and is under the general observation of a qualified Carrier or terminal representative at all times. As an alternative, a shipment may be placed in a security cage. (See Note A).
- e) The trailer or conveyance containing the material upon which CS is requested must always be connected with the power unit (tractor) during shipment except when stopped at a facility for loading/unloading; at a carrier terminal for servicing; at a carrier-designated point where the driver maintains continuous surveillance over the shipment while disconnected; or at a state or local safe haven location which meets the terminal security standards of paragraph 1(d).
- f) Carrier must be able to trace a shipment in less than 24 hours.
- g) Carrier or its agent will notify the consignee by telephone if shipment cannot reach consignee within 24 hours of the agreed upon desired delivery date.
- h) Driver ID requirements. Carrier must ensure drivers employed to handle sensitive shipments requiring CS carry a valid driver's license and a medical qualification card, employee record card or similar documents, one of which must contain the driver's photograph. From the documents provided, shippers must be able to verify the driver's affiliation with the origin carrier named on the bill of lading.
- i) Single line-haul required.
- j) Trip lease will not be permitted.
- k) The maintenance of a Signature and Tally Record by the Carrier is an integral part of CS. Both the SIGNATURE AND TALLY RECORD SERVICE are required on all shipments for which CS is requested and provided. Drivers are required to sign the form when they assume initial responsibility for the shipment and upon delivery.
- l) Driver(s) moving shipments on which CS is requested will be instructed by the Carrier on how to obtain safe haven refuge, state and local law enforcement assistance, and actions to take to comply with the requirements listed in paragraphs 1(a) through 1(k) above.

- m) The tractor moving a CS shipment must be equipped with a working mobile communications unit, such as a citizens band (CB) radio unit or a mobile telephone unit, capable of contacting state law enforcement personnel for the purpose of seeking assistance, and driver(s) must be capable of using the unit to make the contact.

2. ANNOTATION

When CS is required for a shipment, the shipper shall notify the Carrier in advance of the requirement, and an annotation should be placed on the bill of lading of lading as follows:

“Constant Surveillance Service Requested
Signature and Tally Record furnished to Carrier”

3. CHARGES

In addition to all rates and charges for transportation, shipments for which CS is provided by carrier at shipper's request will be subject to the following charges which include constant and specific surveillance and the maintenance of a signature and tally record.

1	to 500 miles	\$1.25 per mile per vehicle
501	to 1,000 miles	\$0.88 per mile per vehicle
1,001	to 1,501 miles	\$0.82 per mile per vehicle
Minimum Charge		\$443.40 per shipment

If Carrier's operations require an extra driver to provide CS or shipments moving in excess of 500 miles, then charges for these mileage brackets should be adjusted accordingly.

This requirement will not apply when entire shipment consists of freight in a single container, freight secured to pallets, platforms or lift truck skids, or freight in any other authorized form of shipment, each unit weighing 500 pounds or more tendered for shipment (loading required by consignor and unloading required by consignee per NMF 100 Item 568).
2. The complete loading and/or unloading of the freight, including the count thereof, must be performed by the shipper and/or consignee at his expense, without any assistance from Carrier. The density shall be the result of the division of the weight per article piece or package by the cubage ascertained.
2. The weight per cubic foot relates to the density of each shipping package or piece and not to the shipment as a whole.
3. The vertical dimension (or height) of not less than 96 inches shall be used in determining the cube of any unit on top of which other freight cannot be loaded because of:
 - (a) The nature of the article; or,
 - (b) Packaging of lack of packaging, used; or,

 - (d) Specific instructions by the shipper on the bill of lading, or by the consignee, to the effect that no other freight is to be loaded on the top of the article.
4. When the width of an article is equal to or greater than 70 inches, it will be computed as having a width of 96 inches.

ITEM 1001-A DETERMINING AVERAGED DENSITY CLASSIFICATION WHEN MULTIPLE DENSITY DRIVEN CLASSIFICATION ITEMS ARE IN A SHIPMENT

1. Application of this item applies only on shipments that contain multiple commodities, which according to the NMF 100 Series have a density driven classification, within the same piece, package or shipment.
2. Despite the individual classification of individual pieces or packages, an averaged density class will be determined by dividing the piece or package weight by that total cubic feet of the said piece or package.
3. The said averaged density class, as determined in Item 1001-A 2, will be subject to an Averaged Density classification level as shown in the table below:

Sub 1	Less than 1	400
Sub 2	1 but less than 2	300
Sub 3	2 but less than 4	250
Sub 4	4 but less than 6	175

 - b) Each period will stand on its own for payment computation purposes. Revenues or payments will not be accrued from one period to the next in order to meet the minimum payment requirement.
 - c) Should a participant fail to meet the \$50.00 minimum payment requirement for three consecutive periods the allowance, discount or incentive program will be rendered inapplicable and will be cancelled.

ITEM 1039 SHIPPER LOAD OR CONSIGNEE UNLOAD

In lieu of pick up or delivery service and when convenient for Customer and Carrier, Customer may load/unload Carrier's trailers or vehicles, under the following conditions unless a separate agreement between Carrier and Customer applies:

- A. **SHIPPER LOAD** - when prearranged with Carrier's local operations, Carrier will spot or drop trailer at that Shipper's loading facility so the Shipper may load the trailers or vehicles at its convenience. Any discrepancy on those shipments tendered under the Shipper Load and Count arrangement will be handled in the following manner unless a contract between Carrier and Shipper provides otherwise:
 1. At pick-up, Carrier will include "SL&C" on the bill of lading, indicating the Shipper counted and loaded the shipment without Carrier's driver present. The shipper will properly block and brace the freight. Carrier's failure to note "SL&C" on the bill of lading will not affect the liabilities of the parties, if the Shipper has in fact performed the counting and loading without a representative from Carrier present.
 2. Carrier will provide seals for security purposes to the Shipper when requested. Failure to seal a load will not affect the terms and conditions outlined.
 3. Carrier will notify the Shipper's representative by fax or e-mail on a carrier approved form of any exceptions within 24 hours of first unloading of the pick up unit. This will not include weekends or holidays. Carrier cannot be liable for uncountable palletized orders, picked up and delivered with wrap intact.

4. Shortages will be reported as above by the handling unit count. The Shipper will advise Carrier disposition of any merchandise that could or should be applied to a valid shortage. In the event of a Shipper caused shortage, the Shipper will allow Carrier to adjust the Bill of Lading accordingly to reflect actual piece count and weight.
5. Carrier will accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of a concealed nature or shortage is within the shipper wrapped pallet that was delivered intact. In this respect, any claim following will be settled based on the findings of the investigation.
6. Carrier can be responsible for handling units only as applicable and to the extent that a piece count cannot be verified. Individual item numbers, carton numbers, and purchase order number shortages at delivery shall not be deemed as shortages against Carrier when the handling unit count matches the amount properly reported as received on the SL&C trailer.
7. Carrier will not decline liability of claims just because the bill of lading is noted "SL&C". The burden is Carrier's to either provide a clear proof of delivery, a properly reported exception or payment of the claim. The Shipper agrees not to file claims when discrepancies have been properly reported.
8. Other than normal wear and tear or an Act of God, damages or loss to Carrier's equipment while in the shipper's physical possession will be the liability of Shipper. The shipper will promptly reimburse Carrier for the cost of repairing or replacing such equipment.
9. Shipper or Consignee, as applicable, will defend, indemnify, and hold Carrier harmless from any and all claims (including costs and attorney's fees) made against carrier for bodily injury or property damage that occurs as a result of any negligence or other failure to load cargo on Carrier's trailer properly.

B. CONSIGNEE UNLOAD - Carrier will drop or spot trailers or vehicles at the Consignee's facility so the receiver may unload the trailers or vehicles. Any discrepancy on those shipments tendered, as CONSIGNEE UNLOAD will be handled in the following manner unless a separate contract between Carrier and Shipper or Consignee applies:

1. Carrier agrees to spot or drop trailers or vehicles at Consignee's place of business for Consignee to complete the unloading process within normal free time or otherwise agreed to in writing. See item 500 and 501 for details on normal free time.
2. Consignee will not utilize Carrier's equipment for any use other than the express purpose of unloading.
3. When the Consignee fails to report to Carrier's local service center that equipment is empty and available to Carrier for removal, it will be subject to detention rules and charges. See item 500 and 501 for details on detention rules and charges page.

4. Other than normal wear and tear or an Act of God, damages or loss to Carrier's equipment while in the Consignee's physical possession will be the liability of the Consignee. The consignee will promptly reimburse Carrier for the cost of repairing or replacing such equipment.
5. Carrier will note CONSIGNEE UNLOAD on the delivery receipt, indicating that the Consignee unloaded and counted the shipments without Carrier's driver present. Carrier's failure to note CONSIGNEE UNLOAD on the delivery receipts will not affect the liabilities of the parties, if the Consignee has in fact performed the counting and unloading without a representative from Carrier present.
6. Carrier will provide sealed trailers with the Carrier's seal number documented for security purposes. Failure to seal a load will not affect the terms and conditions outlined in this item.
7. Delivery receipts will be signed by the Consignee at time the trailer is dropped for unloading, or if not operationally feasible, will be available to Carrier no more than 24 hours after delivery.
8. The Consignee agrees to notify Carrier by fax or email on the carrier delivery receipt or a pre-approved form of any exceptions within 24 hours of the trailer being dropped. This will not include weekends or holidays. Carrier shall not be liable for exceptions reported after 24 hours of trailer being dropped. The consignee is responsible to provide proof of proper and timely notification back to the carrier in the event of a claim.
9. Notice of any exception is to be faxed on the mutually approved form to the attention of the local terminal's OS&D associate.
10. Carrier shall not be liable for uncountable palletized orders, picked up and delivered with shrink wrap intact or for Shipper Load and Count orders that have been properly reported to the Shipper at first unloading.
11. Carrier shall only be responsible for handling units as signed for and tendered by Shipper. Individual item numbers, carton numbers, and purchase order number shortages shall not be deemed shortages against Carrier when the handling unit count matches the amount signed for at time of Pick up, or as applicable, properly reported as received on a Shipper Load and Count trailer.
12. Shipments tendered to the Consignee to be unloaded at their convenience are to be secured by the Consignee in a manner to prevent theft. Carrier will not be held responsible for product stolen while in the possession of the Consignee.
13. Carrier agrees not to decline liability of claims just because the delivery receipt is noted CONSIGNEE UNLOAD. The burden is Carrier's to provide a clear proof of delivery when the documents are returned to the Carrier. It is the Consignee's responsibility to provide a properly reported discrepancy with dated fax confirmation for payment of the claim. The Consignee agrees not to file claims when discrepancies have not been properly reported.
14. Carrier will accept liability for any loss or damage to product that has been properly reported unless the loss or damage is one of a concealed nature. In this

respect any claim following will be settled based on the findings of the investigation.

ITEM 1040 STURGIS BIKE RALLY

Shipments to Sturgis, South Dakota during the last two weeks in July through the first two weeks in August are subject to a \$100.00 fee. Contact names and phone numbers are mandatory.

ITEM 1041 NMFC EXCEPTION

NMFC Items 300530, 300160, and 400150, each entitled "DISPUTE RESOLUTION," shall not apply to any freight damages claim filed against Saia, any freight charges claim filed by Saia, or any other claim, dispute, or litigation filed by or against Saia arising from any freight transported by Saia or any shipment otherwise subject to this Tariff.

ITEM 1042 OPERATING AUTHORITY / NMFC EXCEPTION

Saia will generally transport freight tendered to it pursuant to its authority to operate as an interstate motor carrier pursuant to MC # 87511. However, Saia reserves the right to provide transportation service through its brokerage authority, rather than acting as motor carrier. In the event Saia chooses to handle a shipment as a broker, Saia liability and obligations shall be as a broker and not a carrier. In the event that Saia, acting as a broker, is listed on the bill of lading as the carrier, this is for convenience only and is not intended to indicate that Saia is the carrier. When operating as a broker, Saia shall have no liability for cargo loss. Section 1(a) of the Uniform Straight Bill of Lading, from NMFC Item 365, shall not apply when Saia operates pursuant to its broker authority.

ITEM 1045 FORCE MAJEURE

Nothing in this Tariff shall require Carrier to provide service at any location from or to which it is impracticable, through no fault or neglect of Carrier, to operate vehicles because of:

- A) The condition of roads, streets, driveways, or alleys;
- B) Inadequate loading or unloading facilities; or
- C) Riots, Acts of God, the public enemy, the authority of law, strikes or labor unrest the existence of violence, or such possible disturbances as to create reasonable apprehension of danger to person or property.

ITEM 1046 FLATBED LOADS

Unless otherwise informed by shipper or consignor, Carrier accepts goods for transportation in the LTL environment and using LTL equipment, and shipments must be packaged for handling in the LTL environment and for transportation on LTL equipment. A shipper desiring transportation of flatbed loads or the use of flatbed equipment must inform Carrier at the time the shipment is booked and must write "FLATBED" in one inch letters on the bill of lading. For flatbed shipments, Carrier will impose a \$75 flatbed charge or, when the characteristics of the freight require it, will convert the shipment to a truckload shipment and re-rate the shipment at truckload rates. If re-rated at truckload rates, the shipment is subject to a limitation of \$1 per pound for loss or damage. See Item 108, Section 13.

When a flatbed shipment is tendered to Carrier without prior notification as required by this item and the shipment is handled in the ordinary LTL environment, Carrier is not liable for loss, damage, or destruction of the freight if the freight is not packaged for handling in the LTL environment as specified in Item 108, Section 18.
