## Saia Expands Network in New Jersey and Utah

JOHNS CREEK, GA - April 22, 2024 - Saia Inc. (NASDAQ: SAIA) announced that Saia LTL Freight will open two new terminals today, one near Trenton, New Jersey, and another in St. George, Utah. The facilities will provide expanded, enhanced service to customers in these important markets.

Trenton sits at the center of a bustling regional economy. Outside of state government, the city is seeing many private-sector industries undergo expansion. Likewise, St. George is seeing rapid development. It recently was named one of three Utah cities leading the country in economic growth.

“Customer demand in these markets is driving our investments,” said Executive Vice President of Operations Patrick Sugar. “These openings support our ongoing expansion plans as we work to drive efficiencies across our network, enabling us to provide customers with industry-leading service.”

Over the past five years, Saia has invested more than \$1.5 billion in the company. This year, we expect to spend \$1 billion alone including investments in terminals, in both new and existing markets; additional team members; new equipment; and technology.

“Customers recognize the investments we are making,” explained Sugar. “This year is a once-in-a-lifetime opportunity for us to be able to bring our service offering to more markets, introduce ourselves to new customers, and serve our current customers more efficiently.”
