

SoMasterful

SoMa, a comprehensive collection defined by elegance and character

Each piece in the SoMa collection is designed as a statement of elegance, where flowing curves and generous wooden elements come together in perfect harmony. Seats and backrests are gently contoured to embrace the body, offering natural comfort, while refined armrests extend the gesture into a seamless visual line. More than urban furniture, SoMa brings both sophistication and ergonomic ease, shaping spaces with grace and comfort.

Crafted for contemporary lifestyles

From benches and armchairs to planters, bins, bollards, and light columns, the SoMa range unfolds into a collection designed to serve the rhythm of public life: guiding flows, shaping spaces, and creating locations for rest and shared moments. With its modular spirit and timeless aesthetic, SoMa enhances urban parks, landscaped settings, and heritage sites alike.

Sustainable, high-quality materials

At the heart of SoMa lies Accoya® wood, chosen for its remarkable stability, lasting durability, and resilience against the elements. FSC® certified and Cradle to Cradle® Platinum awarded, this innovative material reflects a deep respect for both people and the planet. Paired with a sleek powder-coated stainless steel structure, SoMa is built to stand the test of time - even in the harshest environments.
