FC05000

Planter - small

Technical description

Small planter made of High-Pressure Compact Laminate (HPL) according to EN 438-6 standard. Composed of 65% natural wood fibers from sustainably managed forests, certified FSC or PEFC. 12 mm thickness with double-sided 0.8 mm laminate veneer. Weather-resistant (EN 4892-2), UV-resistant (EN 4892-3), scratch- and impact-resistant (EN 178). Fire reaction class EUROCLASS B-s2, d0 according to EN 13501-1 standard.

Geotextile included.

Seawater atmosphere protection available upon request.

Dimensions: 200 × 300 mm • H 550 mm

Capacity: 16 liters

Weight: 12 kg

Lifespan

The estimated lifespan of the product exceeds 25 years.

Depending on usage, the lifespan of HPL is estimated to exceed 50 years.

Maintenance and lifespan

In order to maintain the performance of the products and their aesthetics, it is advisable to clean HPL with hot water and mild soap (organic solvents such as acetone, alcohol, or turpentine if necessary) using a soft sponge; wipe and dry with a non-abrasive absorbent cloth. Refer to the manufacturer's instructions for more details.

Installation

Installation on finished floor. Mandatory floor fixation on concrete slab.

Fixation hole: 9 mm

Concrete screws supplied.

Other fixing methods on request.

Customization

Customization available upon request.

Finish

The finish presented is in compact laminate 0935NT Voyager, code +.H03. Finish options available in any of the standard shades from the AUBRILAM color chart. Other colors available upon request
