Lifespan

The estimated lifespan of the product exceeds 25 years.

Depending on usage, the lifespan of HPL is estimated to exceed 50 years.

Maintenance and lifespan

In order to maintain the performance of the products and their aesthetics, it is advisable to clean HPL with hot water and mild soap (organic solvents such as acetone, alcohol, or turpentine if necessary) using a soft sponge; wipe and dry with a non-abrasive absorbent cloth. Refer to the manufacturer's instructions for more details.

It is recommended to regularly clean metal surfaces with soapy water. Make sure to use non-aggressive products. Never use corrosive products or scouring pads. Once a year, check that there are no signs of oxidation on the metal parts.

Installation
