

FLOOR NOTES are the perfect solution for all indoor floor graphics. Ideal for signage, advertising and social distancing reminders and guiding.

Available in both SRA3 sheets and pre-cut label formats.

A matt white durable tear resistant polyester (PET) specifically designed for use on dry toner printer systems. The anti-slip R10 certified coating means there is no need to laminate before application. Easy to print, apply and remove.

Face material properties and coating | Caliper (thickness) 180 microns / No shrinkage or distortion over time / PVC free. Certified R10 slip resistance & ANSI A137.1 for wet and dry interior spaces

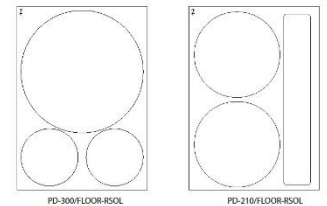

Adhesive | The removable adhesive is ideal for indoor environments and gives clean removability from most surfaces including smooth and hard floors and low pile carpet tiles without leaving residue and no risk of edge lifting.
