This September, Starlight Children’s Foundation is honoring Childhood Cancer Awareness Month by hosting the second annual Stream For Starlight (S4S) campaign—a month-long virtual fundraiser that invites businesses, influencers, gamers, and individuals to stream content and raise money to deliver happiness to seriously ill kids.

#StreamHappiness for seriously ill kids across the country

The Impact is Real

For more than 35 years, Starlight has delivered happiness through state-of-the-art programs like Starlight Virtual Reality and Starlight Gaming that entertain, distract, and inspire hospitalized kids at more than 800 children’s hospitals and health care facilities across the U.S.

Starlight’s innovative and inspiring programs are needed across the country, now more than ever. Regardless of the severity of the illness or injury, a sick kid is still a kid.

Stream For Starlight and deliver happiness to seriously ill kids—one stream at a time!

How Can You Stream For Starlight?

1. Choose your content from games to music to drawing, the opportunities are endless!

2. Choose your platform Twitch, YouTube, Facebook, Instagram; choose what you love!

3. Learn more at starlight.org/stream-for-starlight
