SESAR Deployment: an innovative governance

LEVEL 1 Policy Level

European Commission

The European Commission responsible for ensuring that **the Common Projects** are **in line with EU policies** and leads this level with other organisations so as to achieve interoperability of ATM functionalities

LEVEL 2 Management Level

SESAR Deployment Manager

The **Deployment Manager**, composed of groupings of operational stakeholders, is **responsible for the Management level**: its core task is to **develop, maintain and implement the Deployment Programme**, which constitutes the project view of the Common Projects

LEVEL 3 Implementation Level

Implementing Partners

Implementing Partners are responsible for the execution of the Common projects through the realisation of Implementation projects
