

# PST 10

## Self-regulating cable

PST 10 is a thin and flexible cable intended to be installed inside pipes for keeping them free of ice. The outer sheath of the cable is polyethylene. PST 10 is approved for food-grade use, and can therefore be installed inside drinking water pipes.

- Voltage 230
- Circuit-breaker (C type), maximum load 80 %
- The voltage loss in the feed wire of the heating cable is maximum 10 %
- One (1) heating cable, one-direction feeding
- Placed inside insulated metal tube according to the EN 62395-1 standard

# PST 10

## TECHNICAL DATA

### TECHNICAL DATA

<b>Output</b>	10 W/m (+10 °C)
<b>Nominal voltage</b>	230 V AC
<b>Conductor</b>	Nickel-plated copper (0,56 mm <sup>2</sup> )
<b>Protection</b>	Tinned braid weave of copper
<b>Sheath</b>	Polyethene (Food-grade approved)
<b>Dimensions</b>	6,0 x 9,0 mm
<b>Mass</b>	6,2 kg / 100m
<b>Maximum ambient temperature</b>	65°C
<b>Minimum bend radius</b>	25 mm
<b>Minimum installation temperature</b>	-45 °
<b>UV-protection</b>	No
