Delivery & Fulfillment

When Will My Order Arrive?

All orders have a processing time of 8-10 business days. Once your order has been processed, it will be shipped via the method selected with your corporate gifting sales representative

At this time, we offer Standard Ground Shipping (or Warm Weather Shipping when Ground Shipping is unavailable), which usually arrives in 2-8 business days, or Expedited Shipping which usually arrives in 1-3 business days. To ensure product quality and freshness, we do not ship on Thursday – Sunday during warmer months or to warmer climates.

For time-sensitive deliveries, please keep in mind that Ground Delivery Shipping does not offer a guaranteed delivery date and we highly recommend selecting Expedited Shipping.

Though we are not able to guarantee timing outside of what has been outlined, if there is a specific arrival date that you require for your order, you may work with our sales representative to coordinate best available options in an effort to meet your needs.

Can I use my own shipping account?

You may use your own shipping account by providing your FedEx or UPS account number in “Add Special Requests” step in the customization process.

Can I ship to multiple addresses?

Yes. Orders requiring multiple shipping addresses will be handled on a case-by-case basis. Please work with our representative to discuss options for multiple address shipping.

Can I ship my order Internationally?

At this time, we are not able to fulfill orders outside of the United States. Some of our international customers use freight forwarders in the United States who will accept orders on their behalf; however, for security reasons, orders sent to a freight forwarder may require additional identity verification at our discretion. We are not responsible for orders after they reach the delivery address.
