60 YEARS OF INNOVATIVE SOLUTIONS

UNIQUE AND INNOVATIVE PLASTIC PACKAGING SOLUTIONS

Our returnable plastic solutions are designed to keep the product safe, eliminate waste and maximise savings in the supply chain.

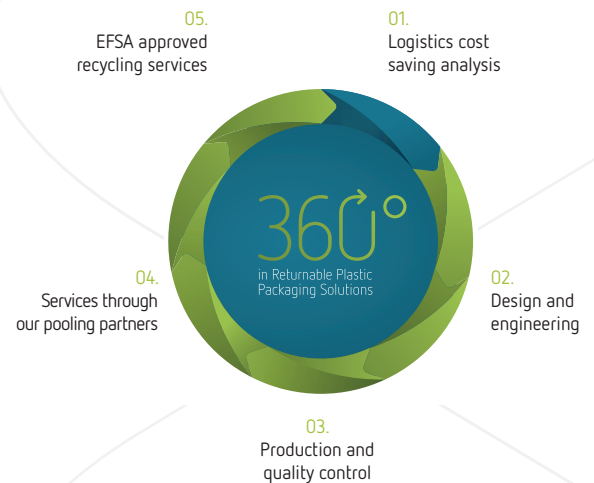

Schoeller Allibert packaging solutions are fully compatible with all chemical, pharma & cosmetics processing equipment. They help reduce carbon footprint thanks to faster loops and intense reuse during years, helping our customers comply with sustainability norms and objectives. Moreover this will lead to internal stock savings.

OUR 360° APPROACH

Our reusable logistics packaging solutions are tough, enabling our customers to save on internal stock, reduce their environmental impact and increase profitability.

Our teams are dedicated to innovation, worldwide. Anticipating the needs of different markets, we design and offer future-proof solutions.

We strive to help our customers to move towards the "circular economy" by re-inventing and manufacturing packaging with the minimum quantity of material for a maximised service life. Moreover we offer our EFSA approved recycling services to optimise resource use and reuse, avoiding waste and maximising the economic value of your initial investment in our packaging.

3 KEY MARKETS

CHEMICAL

In the chemical industry it is important to preserve safety through the quality of a good preservation tank like our rotomoulded returnable plastic products. These provide a costsaving on internal stockage and provide a safe environment to work in.

PHARMA

In the pharmaceutical industry hygiene is very important. Thanks to our hygienic returnable plastic packaging solutions contamination will be avoided. We have several products which have a tamper evidence seal and are tamperproof.

COSMETICS

In the cosmetics industry high value liquid products are moved in returnable bulk containers which have to be contaminationproof. Our linerbags have a 100% guarantee to be leakproof. Moreover thanks to Air Assist we make sure that the remaining residue is kept to a minimum.

CUSTOMER STORIES

TankGo® - Version UN, ADR, RID, IMDG Certified

TankGo® 3000

8357000 - 3000 L

UN 31HH1/Y/*E/SCHOELLER ALLIBERT/
G-10000/0/5345/340kg/3000L/110KPa

Ext. (mm) 2385 x 1570

Weight (Kg) 340

Maximum density (gr/cm³) 1.7

Stacked unloaded 1/1

Max gross weight (Kg) 5345

TOP BENEFITS

- Safe handling & transport
- Personalisation
- Brand awareness and identification
- UN, ADR, RID, IMDG certified
- Easy handling
- Practical, safe to use
- Scale volume
- Extra venting

TankGo® IBC

MTE - 90990AM - 1000 L

Ext. (mm) 1160 x 1160 x 1355

Weight (Kg) 93/103

Maximum density (Kg/L) 1.9

Stacked unloaded 2/1

Max weight loaded (Kg) 2163

MSE - 93900C1 - 800 L

Ext. (mm) 1160 x 1160 x 1155

Weight (Kg) 83/93

Maximum density (Kg/L) 1.9

Stacked unloaded 2/1

Max weight loaded (Kg) 1601

MRE - 93940C1 - 500 L

Ext. (mm) 1160 x 1160 x 895

Weight (Kg) 64/74

Maximum density (Kg/L) 1.9

Stacked during transport 1/1

Stacked unloaded 3/1

Max weight loaded (Kg) 1024

Loading cover:	Threaded DN150 EPDM or Viton sealing gasket
Emptying valves:	Ball valves in PPFV, PE-PVDF and other materials, DN50
Vents:	2 positions in accordance with legislation
Pallet colour:	Black / Red / Green / Blue / Yellow / Grey
Bottle colour:	Black / White

Common Accessories to the TankGo® range

> Frontal venting, valve DN25 (specific for TankGo®3000)

> Ball valve DN50 in GRP, Viton sealing gasket

> Cover DN150 special Viton sealing gasket

> Two-position venting, Viton sealing gasket

> Anti-depression venting

> DN400 Cover with or without vent

> DN50 Valve in PE with PVDF ball Viton sealing gasket

> Ball valve DN50 in GRP, EPDM sealing gasket

> Threaded cover DN150 EPDM sealing gasket

> Two-position venting, EPDM sealing gasket

VERSIONS

Pillow Liners (PW)

Formfit Liners (FF)

Air Assist Liners (AA)

TYPES

Pillow Liners (PW)

- 2 or 3 plies of linear low-density polyethylene (LDPE)
- Versatile in use

Formfit Liners (FF)

- Easy to fill (top/bottom)
- Designed to accommodate high-speed fills
- No pockets or folds trapping residual product while emptying

Air Assist Liners (AA)

- Less residual product
- Designed for high viscosity products
- More complete evacuation
- Decreased costs
- (not possible with CL65)

MATERIAL CHOICES

- EVOH film
- Flexus™ and Flexus HF metallocene LLDPE
- Tenalon™ co-extruded nylonfilm
- Barria™ metalized polyester (only for PW)
- Irradiation (optional)

REGULATIONS

- Complies with FDA regulations 21 CFR 177.1520, CFR 175.105, 177.1390 and CFR 177.1630.
- CDF1 Smart Seal Technology™ for consistent, high quality seals.

CUSTOMER STORIES

Pails ROPAC®

Initial Situation:

Our customer is one of the largest independent global suppliers of chemical and pigment dispersions to the thermoset composites and architectural & industrial paint and coatings industries. Their range of brands includes more than 200 product lines and 7000 products.

Our solution:

The robustness of the ROPAC® packaging combined with its dent & rust free properties resulted in our customer decision to trade off most of their metallic containers for ROPAC® plastic packaging. The first delivered ROPAC® 15 liters were extended to a wider range of ROPAC® 5, 6 and 10 liters packaging

Main benefits:

- Robust.
- Dent and rust free.

Magnum Optimum® 1200 x 1000

Initial situation:

This company is the global market leader in the pharmaceutical industry.

They use these flexible foldable containers for transporting and storing their semi-finished products.

The motivation for choosing this solution was hygiene, quality and optimization of storage and production process.

Our solution:

The strongest, most hygienic, foldable and 100% plastic container on the market.

Main benefits:

- Simplified handling.
- Easy to repair.
- Reduced cost per trip thanks to the high folding ratio.
- Reusable and recyclable solution.
- Ergonomic door opening.
- Larger internal capacity.
- Increased load capacity.
- Hygienic.
- Contaminationproof.
- RFID & IoT ready.

Combo Excelsior® 1200 x 1000 Bag in box System

Initial situation:

Our customer is a global market leader in the cosmetics industry. This customer is developing high value cosmetics products. They bought the Combo Excelsior® because they were impressed about the design (hygienic, strong and ergonomic).

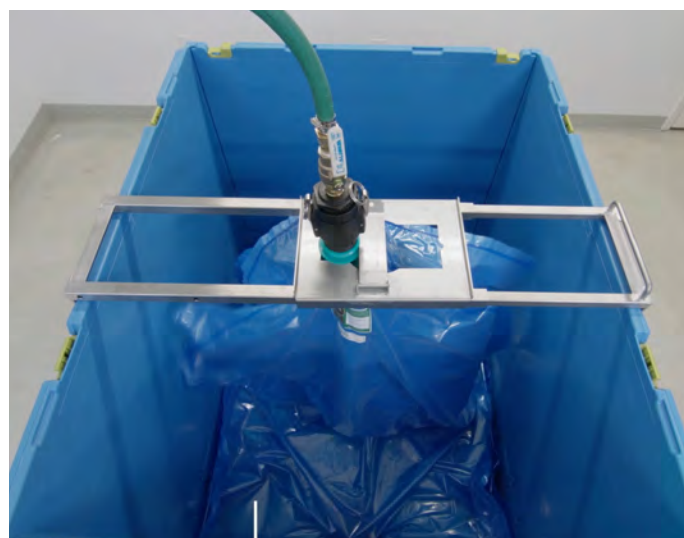

The Combo Excelsior® has very smooth walls on the inside and outside. That results in optimization of the cleaning process of the IBC. The high quality of the Form Fit and Pillow Liners ensures no contamination and also avoids washing costs. That results in saving time and money on each level.

Our solution:

The strongest, most hygienic, foldable and ergonomic 100% plastic IBC on the market.

Main benefits:

- Simplified handling.
- Easy to repair.
- Aseptic filling ensuring 100% safety.
- Reduced cost per trip thanks to the high folding ratio.
- Reusable and recyclable solution.
- Restresidu is kept to a minimum.
- 100% Leakproof liner bags.
- Contaminationproof.
- RFID & IoT ready
