EuroSim®: the ultimate crate for automated handling systems

Versatile, lightweight crate

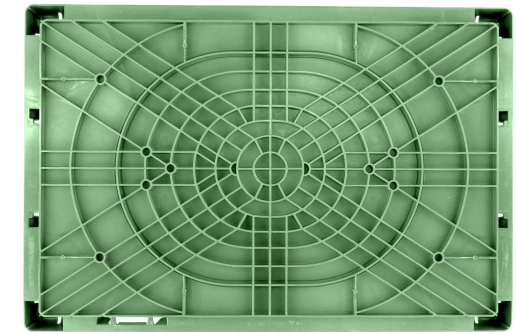

Versatile, lightweight crate to be used in the whole supply chain from harvesting fruit and vegetables, processing in the automated warehouse to serving at the customer. Designed according to well-known system integrators requirements for fully automated handling.

Comfortable handgrips

All four sides are equipped with comfortable handgrips for easy carrying.

Reinforced base

Strong and solid base ensures minimal (<5mm) base deflection on conveyors.

Traceable IML Barcodes

Injection moulded labels on 4 sides. Each crate has a unique label and is fully traceable in the system.

Food approved and 100% recyclable

Made out of EFSA food approved HDPE material.

Corner bumpers

Integrated corner bumpers withstand the impact of automated handling.

Drainage slots

Easy removal of excess water to meet the fire safety requirements.

Cardholders

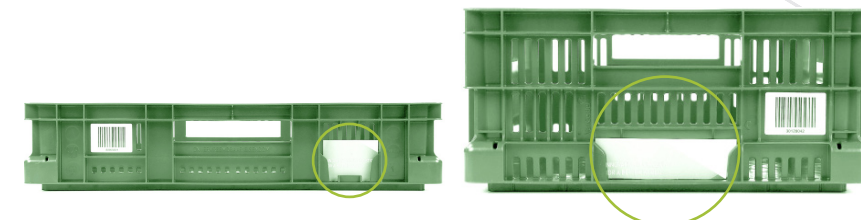

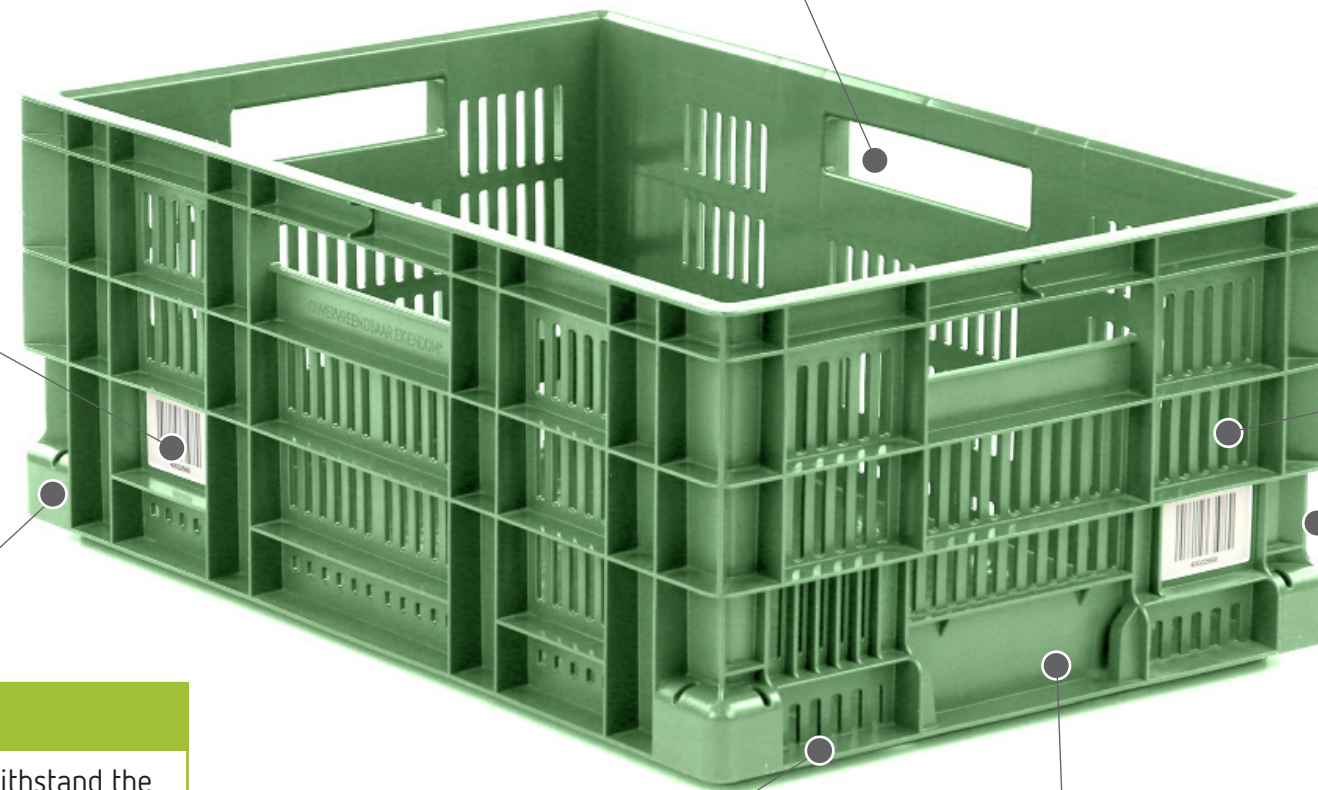

2 big cardholders on the short side and 1 small cardholder on the long side.

Ventilated walls

Optimized ventilation to keep fruit and vegetables fresh.

Special recesses

Designed for robot gripper for easy picking up the crates.

EuroSim®
