Magnum Optimum® 1210: The best plastic foldable large container ever

The best reusable folding large container for industrial logistics

The most efficient reverse logistics solution

With the highest folding ratio on the market Magnum Optimum® 1210 stacks up to 8 in a standard truck and 10 high in a mega truck when folded, reducing carbon footprint drastically.

Fully recyclable at the end of its working life.

Modular System

The optional Optiframe increases height and volume to fit contents or maximise vehicle fill in increments of 105 mm. The Optiframe allows safe return of dunnage which can be stored within the base when folded.

Track- and traceable

Magnum Optimum® 1210 can be enabled with SmartLink® technology. SmartLink® makes your assets track- and traceable. It allows you to achieve wireless control and enable the proactive maintenance of your fleet.

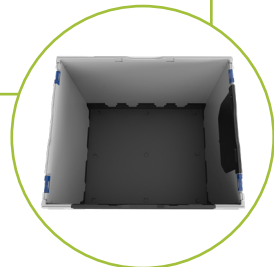

Versatile wide range

One footprint and a variety of heights, drop and sliding doors options. The variants are infinite to meet your needs.

Maximized internal volume

Magnum Optimum® 1210 offers 10% more volume than most FLC's thanks to welded double wall design.

Easy to use

Non sequential folding and easy to use locking devices allow one operator only to erect and fold the Magnum Optimum® 1210 saving on labor and handling time.

4 way forklift entry for flexible and fast handling.

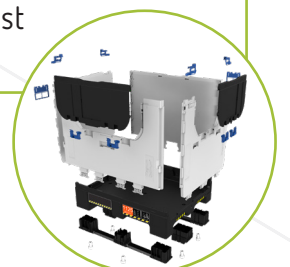

Versatile range

Magnum Optimum Optishute® and Magnum Optimum Hopper® are both the ideal solution for dispensing small parts. The Magnum Optimum Optishute has a unique translucent sliding feature that enables users to adjust the speed of discharge. The Magnum Optimum Hopper® base hopper base has a wide opening which enables fast parts to flow in fully controlled quantities.

Easy to repair

All parts can be replaced, extending the lifetime of your assets. The unique bayonet runner system enables fast and easy repairs.

Smooth and easy to clean

Smooth internal and external surfaces allow fast and easy cleaning. The optional dust cover increases protection and prevents contamination.

Multiple identification options

Optional label holders, bar code label recessed zones, RFID ready, Magnum Optimum® 1210 offers maximized flexibility.
